## **Six Pillars Introductions To The Major Work Of Sri Aurobindo:**

**Six Pillars** Robert A. McDermott, 1974      Six Pillars Robert McDermott, 2012 Sri Aurobindo 1872 1950 was one of the great twentieth century figures of India Over the course of his lifetime he helped India's struggle for freedom and became a leading yogi philosopher and poet of his time and culture In his teaching Sri Aurobindo went well beyond Eastern philosophy and religion synthesizing it with Western traditions even spending two years of his youth at Loreto Convent in Darjeeling West Bengal In 1879 Aurobindo and his two elder brothers were taken to Manchester England for a European education and placed in the care of Rev Drewett an Anglican clergy and his wife In 1884 Aurobindo joined St Paul's School where he learned Greek and Latin and spent three years studying literature especially English poetry By 1910 Sri Aurobindo's focus was directed entirely toward spirituality and he settled in Pondicherry India where he taught wrote and published his greatest works His spiritual vision extended beyond the perfection and transformation of the individual to include the evolution and transformation of human society According to his teaching a true solution to humanity's problems arises from a radical transformation of human life into a form of divine existence The one aim of my yoga is an inner self development by which each one who follows it can in time discover the One Self in all and evolve a higher consciousness than the mental a spiritual and supramental consciousness which will transform and divinize human nature Sri Aurobindo For everyone interested in the philosophical and spiritual vision of the great Indian thinker Sri Aurobindo the revolutionary turned yogi this outstanding collection of masterly introductions first published in 1974 offers original reflections and interpretations of Sri Aurobindo's six major works all written by distinguished scholars of religion and philosophy rather than devotees Long out of print and difficult to find Six Pillars is again available for contemporary readers Contents Foreword by Ursula King John Collins Savitri Poetic Expression of Spiritual Experience Thomas Berry The Foundations of Indian Culture its Contemporary Significance Thomas J Hopkins The Vision of the Purushottama in Essays on the Gita J Bruce Long A New Yoga for a New Age A Critical Introduction to The Synthesis of Yoga Eugene Fontinell A Pragmatic Approach to the Human Cycle Robert McDermott The Life Divine Sri Aurobindo's Philosophy of Evolution and Transformation Introductions to the Major Works of Sri Aurobindo provides readers with a portal into the thinking of one of India's greatest figures of past century Aurobindo the revolutionary turned yogi was a puzzle to his contemporaries and remained one to later generations This is probably still true today But puzzles are there to be solved These essays can help to do that They dissolve some of the enigmas that surround Sri Aurobindo even though not answering all our questions They provide much substance for thought and further discussion and invite us to gain a deeper familiarity with one of the great minds of modern India whose inspiring spiritual message can transform one's life and help to change the world Ursula King from the foreword      The Essential Aurobindo Sri A. Ghose, 1987 This is an introduction to Sri Aurobindo considered by the author to be one of the most profound and relevant contemporary Asian masters speaking to the West His vision he contends transcends the different

strengths and weaknesses of India and the West      The Philosophy of Sri Chinmoy Kusumita P. Pedersen, 2021-06-28 This is the first book length study of the thought of Sri Chinmoy 1931 2007 who became well known during his lifetime as the exponent of a dynamic spirituality of integral transformation which he set forth in an extensive body of writings in both prose and poetry mostly in English but also in his native Bengali He held that all fields of human endeavor can be venues of spiritual transformation when founded in aspiration and contemplative practice He is noted not only as a spiritual teacher but also as an advocate of peace a composer and musician an artist and a sportsman who created innovative programs promoting self transcendence and understanding between people of all cultures and walks of life This study of Sri Chinmoy s philosophy refers to these diverse activities especially in the biographical first chapter but is mainly based on his written works The book s aim is to give to the reader a straightforward and unembroidered account of Sri Chinmoy s philosophy It makes every attempt to allow Sri Chinmoy to speak for himself in his own words and thus provides ample quotation and draws on his poetic works as much as on his other writings      *Thirty-Five Oriental Philosophers* Diané Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2002-01-04 These are questions to which oriental thinkers have given a wide range of philosophical answers that are intellectually and imaginatively stimulating *Thirty Five Oriental Philosophers* is a succinctly informative introduction to the thought of thirty five important figures in the Chinese Indian Arab Japanese and Tibetan philosophical traditions Thinkers covered include founders such as Zoroaster Confucius Buddha and Muhammed as well as influential modern figures such as Gandhi Mao Tse Tung Suzuki and Nishida The book is divided into sections in which an introduction to the tradition it covers precedes the essays on its individual philosophers Notes further reading lists and cross references provide the student with a clear route to further study There is a glossary of key terms at the end of the book

Penguin Sri Aurobindo Reader Makarand Paranjape, Paranjape, Makarand,      **The Bhagavad Gita and the West** Rudolf Steiner, 2006-12 5 lectures Cologne Dec 28 1912 Jan 1 1913 CW 142 9 lectures Helsinki May 28 June 5 1913 CW 146 1 lecture Basel Sept 19 1912 CW 139 This combination of two volumes in Rudolf Steiner s *Collected Works* presents Steiner s profound engagement with Hindu thought and above all the Krishna in the Bhagavad Gita as they illuminate Western Christian esotericism In his masterly introduction Robert McDermott a longtime student of Rudolf Steiner as well as Hindu spirituality explores the complex ways in which the Song of the Lord or Bhagavad Gita has been understood in East and West He shows how Krishna s revelation to Arjuna a foundation of spirituality in India for more than two and a half millennia assumed a similarly critical role in the Western spiritual revival of the nineteenth and twentieth centuries In the West for instance leading up to Steiner s engagement McDermott describes the various approaches manifested by Emerson Thoreau H P Blavatsky and William James In the East he engages with interpretations of historical figures such as Mahatma Gandhi and Sri Aurobindo relating them to Steiner s unique perspective In addition and most important he illumines the various technical terms and assumptions implicit in the worldview expressed in the Bhagavad Gita The main body of *The Bhagavad*

Gita and the West consists of two lecture courses by Rudolf Steiner The Bhagavad Gita and the Epistles of Paul and The Esoteric Significance of the Bhagavad Gita In the first course his main purpose is to integrate the flower of Hindu spirituality into his view of the evolution of consciousness and the pivotal role played in it by the Mystery of Golgotha the incarnation death and resurrection of Jesus Christ Steiner views Krishna as a great spiritual teacher and the Bhagavad Gita as a preparation though still abstract for the coming of Christ and the Christ impulse as the living embodiment of the World Law and Devotion represented by the three Hindu streams of Veda Sankhya and Yoga For Steiner the epic poem of the Bhagavad Gita represents the fully ripened fruit of Hinduism whereas Paul is related but represents the seed of something entirely new In the last lecture of part one Steiner reveals Krishna as the sister soul of Adam incarnated as Jesus and claims Krishna's Yoga teachings streamed from Christ into Paul In the second lecture course five months later Steiner engages the text of the Bhagavad Gita on its own terms as signaling the beginning of a new soul consciousness To aid in understanding both of these important cycles this book includes the complete text of the Bhagavad Gita in Eknath Easwaran's luminous translation In our age when East and West are growing closer and we live increasingly in a global intercultural and religiously pluralistic world this remarkable book is required reading The Bhagavad Gita and the West is a translation of two volumes in German Die Bhagavad Gita und die Paulusbriefe CW 142 and Die okkulten Grundlagen der Bhagavad Gita CW 146 The lecture in the appendix is translated from Das Markus Evangelium CW 139 and was published in The Gospel of St Mark Anthroposophic Press 1986

*Fifty Eastern Thinkers* , **Modern Indian Responses to Religious Pluralism** Harold G. Coward, 1987-11-15 The study of modern Indian responses to the challenge of pluralism reveals the outcome of 2500 years of experience in this living laboratory of religious encounter and offers wisdom to the modern West in its relatively recent encounter with this challenge A remarkable team of scholars joins forces in this book to examine how religious pluralism actually functions in India It focuses on both the responses from within Hinduism and of other religions in India with chapters on Parsis Indian Islam Indian Christianity Sikhism and Tibetan Buddhism

**Fifty Eastern Thinkers** Diane Collinson, Kathryn Plant, Robert Wilkinson, 2013-04-03 Close analysis of the work of fifty major thinkers in the field of Eastern philosophy make this an excellent introduction to a fascinating area of study The authors have drawn together thinkers from all the major Eastern philosophical traditions from the earliest times to the present day The philosophers covered range from founder figures such as Zoroaster and Confucius to modern thinkers such as Fung Yulan and the present Dalai Lama Introductions to major traditions and a glossary of key philosophical terms make this a comprehensive and accessible reference resource
