Brown, 2019 Through the Looking Glass examines John Cage's interactions and collaborations with avant garde and experimental filmmakers and in turn seeks out the implications of the audiovisual experience for the overall aesthetic surrounding Cage's career As the commercially dominant media form in the twentieth century cinema transformed the way listeners were introduced to and consumed music

Cage's quest to redefine music intentionality and expression reflect the similar transformation of music within the larger audiovisual experience of sound film. This volume examines key moments in Cage's career where cinema either informed or transformed his position on the nature of sound music expression and the ontology of the musical artwork. The examples point to moments of rupture within Cage's own consideration of the musical artwork pointing to newfound collision points that have a significant and heretofore unacknowledged role in Cage's notions of the audiovisual experience and the medium-specific ontology of a work of art.
