Hardrock Mining on Federal Lands National Research Council, Division on Earth and Life Studies, Commission on Geosciences, Environment and Resources, Board on Earth Sciences and Resources, Committee on Hardrock Mining on Federal Lands, 1999-12-03 This book the result of a congressionally mandated study examines the adequacy of the regulatory framework for mining of hardrock minerals such as gold silver copper and uranium on over 350 million acres of federal lands in the western United States These lands are managed by two agencies the Bureau of Land Management in the Department of the Interior and the Forest Service in the Department of Agriculture

The committee concludes that the complex network of state and federal laws that regulate hardrock mining on federal lands is generally effective in providing environmental protection but improvements are needed in the way the laws are implemented and some regulatory gaps need to be addressed. The book makes specific recommendations for improvement including: The development of an enhanced information management system and a more efficient process to review new mining proposals and issue permits; Changes to regulations that would require all mining operations other than casual use activities that negligibly disturb the environment to provide financial assurances for eventual site cleanup; Changes to regulations that would require all mining and milling operations other than casual use to submit operating plans in advance.

Back to Schoolin' Kevin Courtright, 2009-09 *Back to Schoolin'* is the culmination of years of conscious and subconscious study in the school of music known as Led Zeppelin. Having studied the band and its music for nearly thirty years, author Kevin Courtright has acquired a tremendous body of knowledge and insight into music and the music business, which is modeled by Zeppelin. He presents this knowledge through three major categories: The Music, the Presentation, and Relationships, and the Business. Dispersed within these three major categories are a total of thirty-two chapters, each of which is broken into three sections: The Inspiration, the Information, and the Implementation. Mr. Courtright's goal is to pass on this body of knowledge to others, whether musicians or not. The book is fascinating in its presentation and educational in its content. *Back to Schoolin'* is recommended reading for anyone interested in not just rock music but music in general. Kevin Courtright is a Los Angeles-based composer and author whose latest opus is the book *Back to Schoolin' What Led Zeppelin Taught Me About Music*.
