Unit, 1981 Twenty children aged 11 to 14 discuss various aspects of divorce including custody arrangements parents boyfriends and girlfriends how they were first told about their parents divorce and how divorce has changed them **What About the Kids?** Sandra Blakeslee, 2003-03-12 The groundbreaking handbook that helps parents guide their children through divorce and co parenting including the introduction of step parents from a New York Times bestselling author and child psychologist This is the definitive work from the renowned child psychologist Judith Wallerstein on a subject that concerns millions of American moms and dads How can you protect your children during and after divorce Divorce is not a single event but a lifelong trajectory of changed circumstances that demand a different kind of parenting than we have ever known In *What About the Kids* Wallerstein draws on thirty years of in depth interviews with children of divorce and their parents to show how to create a new family with compassion and wisdom It covers issues that arise at the time of divorce as well as suggestions for talking to your children months and years after the event Eminent psychologist Judith S Wallerstein shares her unique insight and advice in *What About the Kids* the first comprehensive guide to easing the impact of divorce on your children including The best and worst ages for children to experience their parents divorce Right and wrong ways to explain divorce to your children Choosing a custody arrangement that s best for your child How to involve the grandparents a major resource Getting the children on your side when you form new relationships The positive effects of divorce on children believe it or not How divorce can actually make you a better parent Raising children who grow up able to form lasting relationships *Kids and Divorce* Steven T. Griggs, Ph.D., 2018-06-23 I have been a practicing psychologist in an outpatient setting for over thirty two years I run into the same issues and problems almost every day addictions anxiety ADHD learning disabilities assertiveness children s behaviors mood disorders relationships and self esteem This article is another about children in this case what they experience after their parents separate and or divorce Here s some particulars This ebook discusses what not to do after the divorce or put more positively what to do to help your child ren cope and process this very big life changing event It focuses on both the parent and child s experiences However since I am a child psychologist it presents information to parents from the child s point of view highlighting what children need and want when their parents are no longer together Here s some specifics I start with a summary of some of the more common research findings I don t get too technical or scholarly but it is important to put my information into context Next is a description of how children see divorce Most parents get more of their own experience not the child s While it occasionally does occur it is very rare that kids want their parents to divorce Kids have very bad feelings during this and subsequent times What are these feelings and how can parents help Here is a discussion of the seven things kids want and the five feelings they need to have Next is a discussion of what parents might consider before the divorce Some parents do a very good job of thinking about what to do before telling the kids Here you will find the top

ten things to do first What are the ways to reach kids I go over specific communication techniques especially the ones that work the best What about rewards bribes manipulation Parents usually resort to some version of these often out of desperation I write about how to avoid much of that These are covered under Vocabulary of Feelings the Four To One Rule and the Three Contingencies of Reinforcement Parents have to know about acting out They have to understand what acting out expresses What does it mean What is the child doing by behaving this way This is where the Vocabulary of Feelings earns high marks It opens up communication in productive not destructive ways What are the most common feelings children have during this time I list seven Sometimes kids are really thrown for a loop by divorce no matter how sensitive the parents are Worse sometimes kids fall apart which is more common when parents declare war on each other I list the top ten major warning signs of childhood decompensation If you see any of these signs take your child to a licensed professional What are the three most destructive things a child believes about the divorce Parents have to correct these right away or else What is the one finding from dozens of studies that almost single handedly explains why there is such harm children suffer before during and after the divorce Parents should know about Constancy This is one of the most powerful psychological principles that parents overlook Without it kids are lost What is the most crucial time to attend to this There is one developmental time frame that requires special attention If the divorce occurs during this two year window the child is five times more likely to develop a depressive and or an anxiety disorder in the teen years How should parents handle visitation This is such a strange word to kids especially in the beginning just after the divorce What s the aftermath of children having to go back and forth between parents What might parents do about pre visit and exit jitters What about resistance Then I introduce some techniques things to do or say that make much of this manageable Believe it or not parents can succeed in all the above areas even while living in separate households It s not ideal but children can salvage much that is meaningful but only if the parents are skilled This brings up co parenting Have you and your ex considered what rules each of you will have pertaining to the child How about rewards for good behaviors It s important for the contingencies to be at least similar between the houses What about changes Usually parents develop a schedule of visitation But things change often at the last minute Now what Parents have to work together at least a little bit to pull this off I provide lots of tips What are the seven deadly sins committed by warring parents during visitation These are huge no no s if you want your child to have any peace of mind at all What do parents need to know if and when there arrives a stepparent Thought things were challenging just after the divorce Just wait And how do the children address the new parent Blended families foil many an attempt to re stabilize households But there are four simple solutions mind sets that help if the parent is open And what do parents do with their own feelings Usually we act them out on our ex This is understandable but it is damaging to both parents and children What if the ex s hate each other so much that they will not even send email to each other This is disastrous and probably requires intervention I discuss when and what types will be most helpful Parents need to know what constitutes the best adult

behaviors in conjunction with what the children are feeling If this fails it probably is appropriate for the parents to start their own counseling I tell you when Lastly two things are included that are not often discussed in this context One is the death of a parent and the sequela experienced by the remaining family members The other is the divorced parent s self care which is usually diminished I list the ten areas separated and or divorced parents should not overlook These are the subjects I cover in this ebook This ebook has 31 pages and contains THE information parents have to have to save their kids from psychological harm Clients are very enthusiastic about this ebook probably because there are not many to the point references to be found on this subject Half the population has experienced divorce and unfortunately a high number of divorcing couples have children There is a great need here This ebook has no fat Think of it as a Cliffs Notes publication It s a quick read about an hour because I go straight to the points and explain concepts in everyday language just like what you re reading now The Truth About Children and Divorce Robert E. Emery Ph.D.,2006-01-31 Nationally recognized expert Robert Emery applies his twenty five years of experience as a researcher therapist and mediator to offer parents a new road map to divorce Dr Emery shows how our powerful emotions and the way we handle them shape how we divorce and whether our children suffer or thrive in the long run His message is hopeful yet realistic divorce is invariably painful but parents can help promote their children s resilience With compassion and authority Dr Emery explains Why it is so hard to really make divorce work How anger and fighting can keep people from really separating Why legal matters should be one of the last tasks Why parental love and limit setting can be the best therapy for kids How to talk to children create workable parenting schedules and more
