Publications,2007-09 *Wonderfully* Diego kurilo, Regarding the phenomenon of unidentified objects we have more questions than answers it is good that it is so by luck and my personal searches I have not found an answer to all the questions that ufology raises such as the most important ones what where do these beings come from And what is your purpose of visiting the earth or your final purpose limited to the abduction of people with an almost industrial methodology or cadence I am still looking for answers to my own searches about my own UFO experiences Regarding the ufological theme over the years what I have discovered is that the phenomenon is more diverse than one could imagine the ufo really

manifests itself as a Monster with thousands of arms and an impossible and unclassifiable face The great edifice of ufology ranges from mutilation of cattle also of people rarer cases but there are to out of body experiences of an angelic astral type taking samples where ships land reports of direct and programmed contact where human beings knowingly and intentionally board a ship perhaps never to return Surely if he returns it is because something is pending a debt or as I would say a backpack full of Pagina 10 Real Contact Stories E T things if one does not return it is because he discovered that there is nothing to discover silence is more important than anything else I What many comment is that you get on the ships in pairs like Adam and Eve All this gibberish of experiences is ufology it is so diverse and fun that one is trapped in its clutches in an infinite circle of discomfort and deception also love and a tireless search for a knowledge that is spread over several lives is it our own memory a hoax or perhaps to discover that we are the ones who created the contact as synchronous events and possible memory failures in most cases of abductions only part of the event is remembered it would seem that good for these beings or due to one s own dimensional experiences oblivion is the only thing to reap somehow a cursed and necessary harvest we put that event there to distract ourselves in this daily life or as a trigger for new spiritual searches ufology is what more like the land of Oblivion The vast majority of ufological experiences entail lost time and temporal variance as a whole it presupposes the entrance to an archetypal world of a super lucid dream type where time is perceived as a clock of events in its fracture the effects precede the causes and space becomes fluid time turning into space and vice versa Welcome to the land of wonders Pagina 11 Real Contact Stories E T Time becomes space in certain places on earth as portals to what was since the phenomenon is not bound in time and space Because the experiences mainly in the vicinity of the ships which are extravagant it is possible that space becomes time and time space At this stage of the investigation we are clear that close encounters with UFOs are not produced by usual physical events that is the witnesses are not observing the landing of an interplanetary ship manned by scientists from a distant galaxy It is more likely that all of this that we have labeled and studied as UFO close encounters are in reality fleeting visions of an extended reality which is sometimes perceptible to some people John Keel from his book The Eighth Tower It is necessary to expand our limits of what ufos really are the most plausible hypothesis is that they really are beings from other parts of the cosmos arriving on earth in their ships these beings have discovered the way to transport themselves from a place in the cosmos to another in an instant they have solved the problem of space travel and its distance since it is always now and space is plausible to become time Due to the ufological casuistry that grows year by year we realize that the phenomenon is not tied in time and space but rather that it manifests itself as a rather fragmented puzzle of experiences that will manifest in the life of the contactee or experimenter from earliest childhood Many of the causes of contact or experience lie in the future of what happens in the past time runs backwards in the ufo phenomenon In other words it is a warp of events or Moebius strip where the houses are in the future of what happens in the past The experimenter due to his misfortune and lack of time discovers that he was always the one who

created that broken mirror of contact or that it will manifest as a broken mirror of circumstances and archetypal events We are burned as stories because we decided to experience immortality There is no greater misfortune than drinking from the waters of immortality One remains locked in an eternal trial of silence to discover what it was we who put all those errors and faults there Wonderfully Diego Kurilo,2025-06-18 Re g a r d i n g t h e p h e n o m e n o n o f unidentified objects we have more questions than answers it is good that it is so by luck and my personal searches I have not found an answer to all the questions that ufology raises such as the most important ones what where do these beings come from And what is your purpose of visiting the earth or your final purpose limited to the abduction of people with an almost industrial methodology or cadence I am still looking for answers to my own searches about my own UFO experiences Regarding the ufological theme over the years what I have discovered is that the phenomenon is more diverse than one could imagine the ufo really manifests itself as a Monster with thousands of arms and an impossible and unclassifiable face The great edifice of ufology ranges from mutilation of cattle also of people rarer cases but there are to out of body experiences of an angelic astral type taking samples where ships land reports of direct and programmed contact Page 11 Real Contact Stories E T w h e r e h u m a n b e i n g s k n o w i n g l y a n d intentionally board a ship perhaps never to return Surely if he returns it is because something is pending a debt or as I would say a backpack full of things if one does not return it is because he discovered that there is nothing to discover silence is more important than anything else I What many comment is that you get on the ships in pairs like Adam and Eve **Conspiracy of Light** Terry Goodman,2002-03-26 This is a simple yet expansive guide through the labyrinth of Unity Consciousness Touching upon current evolutionary physics ancient philosophical principles comparative religion and metaphysical practicality the Academy of Ur beckons one toward Self and Universal exploration Terry Goodman weaves humor and humility through what can seem daunting subject matter creating a path of investigation that offers concrete tools alternate perspective and direct knowledge of the individual awakening experience The King Victorino. Alejandro Roque Glez,2012-06-19 THE KING VICTORINO is a story that opens to us a defined but infinite window towards the time during the Kingdom promised by the Son of God Here there is no prolepsis which could destroy nor fights between acute oxytone paroxytone or proparoxytone stressed words vowels or consonants but a neat link from that future predicted to us since long ago The reader will laugh at the likeable occurrences by the king and those around him with the adventures that happen not only in the Kingdom of Tocaroro where he rules his people but also in the journey that he undertakes during the last seven years of the Great Millenarian Kingdom that is to say from the year 992 to 999 of the GMK starting with the passage in which on very decorated horse carriages he firstly crosses the Atlantic region now a dry land converted into an Eden of unimaginable proportions In the course of the story peoples and characters around the king Victorino interact in dialogues and situations trapped within the journey while the king remembers all the biblical passages that in the old century announced the promise of the Millenarian Kingdom This is therefore a book that quotes the Word of

God often though by this time and because of many we added them in several footnotes where they can be found and ensuring that eternal justice is not a hollow promise but an augmentative locomotive approaching at the speed for which the Creator God has predestined in the dispensation of the time and ages

How It Began Chris Impey, 2013-01-14

Impey combines the vision of a practicing scientist with the voice of a gifted storyteller Dava Sobel In this vibrant eye opening tour of milestones in the history of our universe Chris Impey guides us through space and time leading us from the familiar sights of the night sky to the dazzlingly strange aftermath of the Big Bang What if we could look into space and see not only our place in the universe but also how we came to be here As it happens we can Because it takes time for light to travel we see more and more distant regions of the universe as they were in the successively greater past Impey uses this concept look back time to take us on an intergalactic tour that is simultaneously out in space and back in time Performing a type of cosmic archaeology Impey brilliantly describes the astronomical clues that scientists have used to solve fascinating mysteries about the origins and development of our universe The milestones on this journey range from the nearby to the remote we travel from the Moon Jupiter and the black hole at the heart of our galaxy all the way to the first star the first ray of light and even the strange roiling conditions of the infant universe an intense and volatile environment in which matter was created from pure energy Impey gives us breathtaking visual descriptions and also explains what each landmark can reveal about the universe and its history His lucid wonderfully engaging scientific discussions bring us to the brink of modern cosmology and physics illuminating such mind bending concepts as invisible dimensions timelessness and multiple universes A dynamic and unforgettable portrait of the cosmos How It Began will reward its readers with a deeper understanding of the universe we inhabit as well as a renewed sense of wonder at its beauty and mystery

Celebrating the Labyrinth Gailand MacQueen, 2021-04-05

Labyrinths and labyrinthine borders have been around for a very long time In fact they have been used outside of formal religion as a ritual object to express spiritual values for at least 3500 years in countries all over the world including China India the Holy Land Ireland Southern Europe Scandinavia pre Columbian America and England They can be found at Neolithic and Sardinian and Hopi rock art sites in Hindu temples and Taoist shrines bordering Minoan frescoes and in Roman mosaics They have been incorporated into Roman Catholic and Episcopal cathedrals Protestant churches and in New Age retreat centres They have been carved into rocks turf and wood engraved in metal laid out in stones woven in reeds set in tiles painted and drawn In other words the labyrinth is a nearly universal form and comes as close as we can to an

archetype An archetype is a symbol that appeals to us at an unconscious level We don't have to struggle with its meaning intellectually Its symbolic meaning is somehow ingrained in us part of our very nature As a result it may appeal to us without our even understanding why It is always risky to talk about the meaning of such an archetypal symbol We know that it must carry a wealth of meaning to appeal to so many different sorts of people over such a long stretch of time But we can tentatively explore some of its meanings if we stay aware that we can never really plumb all of its riches

Stars on the Earth Richard Leviton, 2006-08 Discover the wonderful secret the Earth holds for us that the stars of the galaxy live on our planet Holograms of high magnitude stars over holy mountains Physical travel to other planets through stargates on the Earth's surface Near instantaneous transportation across the planet through quick way portals Outrageous science fiction or sober geomantic fact Earth Mysteries researcher Richard Leviton takes you on a wild tour of three geomantic features of our planet and reveals that what science fiction has dreamed the Earth in fact offers us Stars on the Earth combines scholarship

clairvoyance and field experience with the latest discoveries of geology and astrophysics and the timeless insights of the world's myths to open the planetary door to the stars. It's all part of the Earth's unsuspected but staggeringly rich endowment as a designer planet. Our planet was precisely designed and implemented for us and it's equipped with a visionary geography that mirrors features of the galaxy and Heavens. Why are so many of the Earth's mountains said to be holy producing visions and encounters with the gods? They all have canopies of light called domes each transmitting the presence of a galactic star. What is the geomantic origin of the Bermuda Triangle? Two dysfunctional stargates. If working properly they and the Earth's other two million stargates could transport us rapidly to other planets. Is there a way to travel quickly across the planet without using cars, airplanes, boats or trains? Yes and it's called a traversable wormhole and the Earth has thousands of them awaiting our discovery and use. Come join the tour of a planet you've never seen before our own star-infused Earth.

The Emergence Howard A. Cooper, 2018-01-22 Did you know that you are of great importance to the universe? You are part of a mosaic of life and you have meaning. This is not intended to make you feel good or bad. It is a fact of third-dimensional reality and beyond. You are an ingredient in the flow of history but the reasons why can seem a mystery. Only you hold the key to your existence. What is the meaning of life? What is your ultimate destination? We liken the journey of life to walking the path of a labyrinth. The initial step of the journey is to simply realize what exists in the world today; the second is to realize the parts we play; the third step highlights issues that interfere with our potential and provides tools to set us free; the fourth reflects a vision of the future that is totally dependent on our willingness to step beyond our current world conditions and level of consciousness. As we travel through this lifelong labyrinth of third-dimensional reality, we must keep in mind that there are many paths but only one journey. This path that you now walk is the key to the great mystery of existence: your existence. Finding purpose is a logical goal and in part that is necessary but there is a greater mystery to solve on your journey. Are you ready to find the answers?

Planet Earth, Past and Present Michael Carroll, 2023-10-18 The Earth is not the world it once was and it is not the world it will always be. This book describes the exciting, complex and occasionally baffling history of our own planet. Over the course of its 4.5 billion years, Earth has undergone astonishing changes to its surface and atmosphere at times more closely resembling other planets in our Solar System than the habitable, teeming biosphere of today. Through these otherworldly analogs, author/illustrator Michael Carroll teaches readers about different aspects of our own planet's past. Our nearest cosmic neighbor, Venus, offers insights into Earth's own young atmosphere and surface while Saturn's moon, Titan, may offer a window into the genesis of life on Earth. *Planet Earth: Past and Present* explores these and many more connections. Original art accompanies each chapter depicting major stages of the Earth's evolution and providing vivid comparisons to other planets or moons. Come along on this journey through the Solar System, a journey that ultimately leads us home.

Xeelee: Vengeance Stephen Baxter, 2017-06-15 Half a million years in the future on a dead, war-ravaged world at the centre of the Galaxy, there is a mile-high statue of Michael Poole. Poole, born on Earth in

the fourth millennium was one of mankind's most influential heroes. He was not a warrior, not an emperor. He was an engineer, a builder of wormhole transit systems. But Poole's work would ultimately lead to a vast and destructive conflict, a million-year war between humanity and the enigmatic, powerful aliens known as the Xeelee. The Xeelee won, but at a huge cost. And defeated in a greater war, the Xeelee eventually fled the universe. Most of them. A handful were left behind, equipped with time travel capabilities, their task to tidy up, to reorder history more to the Xeelee's liking. That million-year war with humankind was one blemish. It had to be erased. And in order to do that, a lone Xeelee was sent back in time to remove Michael Poole from history.
