The Languages Of Psyche Mind And Body In Enlightenment Thought Clark Library Lectures 1985 1986:

The Languages of Psyche George Sebastian Rousseau, 1990 *The Languages of Psyche* illuminates principal aspects of eighteenth century medicine and literature and shows how evolving patterns of thought established continuities that helped shape nineteenth and twentieth century conceptions of the mental anatomy Specialists in the history of ideas including the history of medical psychology philosophy political science and literature and the arts should welcome its publication Gloria Sybil Gross California State University Northridge This is a splendid anthology which I read with unflagging interest The editor has managed an eclecticism that works It produces rich and fascinating variety rather than chaos Henry Abelove Wesleyan University A very impressive set of essays dealing with an important topic in eighteenth century thought written by some of the leading scholars in social history history of science and medicine and literary studies John Yolton Rutgers University

The Languages of Psyche G. S. Rousseau, 2023-04-28 *The Languages of Psyche* traces the dualism of mind and body during the long eighteenth century from the Restoration in England to the aftermath of the French Revolution Ten outstanding scholars investigate the complex mind body relationship in a variety of Enlightenment contexts science medicine philosophy literature and everyday society No other recent book provides such an in depth suggestive resource for philosophers literary critics intellectual and social historians and all who are interested in Enlightenment studies This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996 *The Languages of Psyche* traces the dualism of mind and body during the long eighteenth century from the Restoration in England to the aftermath of the French Revolution Ten outstanding scholars investigate the complex mind body relationship in

[The French Revolution and the Creation of Benthamism](#) C. Blamires, 2008-07-10 The first study of how Genevan Etienne Dumont and his traumatic experience of the French Revolution shaped the reception and presentation of Benthamism and masked the true face of Jeremy Bentham one of the architects of modern society who visualised a new world based on the values of transparency accountability and economy

[Towards a History of Consciousness](#) Vwadek P. Marciniak, 2006 *Towards a History of Consciousness* Space Time and Death offers a cogent and compelling discussion of the neglected topic of the history of consciousness An analysis of our postmodern ontology reveals deep but neglected roots What are those roots and how did they grow Is there a self without consciousness What is the relation of the self to the individual Does the recognition of death contribute to the growth of consciousness As a survey of western history this work pushes the boundaries of the understanding of consciousness in intriguing and sometimes provocative directions This integrative study is intended for the serious curious student and thinker

[Literary Modernism, Bioscience, and Community in Early 20th Century Britain](#) C. Gordon, 2007-05-14 This book examines the relationship between

the literary and bioscientific cultures of the period as a means of exploring the ways in which the comprehension and representation of the human body fundamentally shapes a variety of the period's communal and national visions

The Idea of Disability in the Eighteenth Century Chris Mounsey, 2014-03-21 The Idea of Disability in the Eighteenth Century explores disabled people who lived in the eighteenth century. The first four essays consider philosophical writing dating between 1663 and 1788 when the understanding of disability altered dramatically. We begin with Margaret Cavendish whose natural philosophy rejected ideas of superiority or inferiority between individuals based upon physical or mental difference. We then move to John Locke the founder of empiricism in 1680 who believed that the basis of knowledge was observability but who faced with the lack of anything to observe broke his own epistemological rules in his explanation of mental illness. Understanding the problems that empiricism set up Anthony Ashley Cooper Lord Shaftesbury turned in 1711 to moral philosophy but also founded his philosophy on a flaw. He believed in the harmony of the aesthetic trinity of beauty truth and virtue but he could not believe that a disabled friend whom he knew to have been moral before his physical alteration could change inside. Lastly we explore Thomas Reid who in 1788 returned to the body as the ground of philosophical enquiry and saw the body as a whole complete in itself and wanting nothing be it missing a sense. Reid was deaf or a physical or mental capacity. At the heart of the study of any historical artifact is the question of where to look for evidence and when looking for evidence of disability we have largely to rely upon texts. However texts come in many forms and the next two essays explore three types the novel the periodical and the pamphlet which pour out their ideas of disability in different ways. Evidence of disabled people in the eighteenth century is sparse and the lives the more evanescent. The last four essays bring to light little known disabled people or people who are little known for their disability giving various forms of biographical accounts of Susanna Harrison Sarah Scott Priscilla Poynton and Thomas Gills who are all but forgotten in the academic world as well as to public consciousness.

British Romanticism and the Science of the Mind Alan Richardson, 2001-07-26 In this provocative and original study Alan Richardson examines an entire range of intellectual cultural and ideological points of contact between British Romantic literary writing and the pioneering brain science of the time. Richardson breaks new ground in two fields revealing a significant and undervalued facet of British Romanticism while demonstrating the Romantic character of early neuroscience. Crucial notions like the active mind organicism the unconscious the fragmented subject instinct and intuition arising simultaneously within the literature and psychology of the era take on unsuspected valences that transform conventional accounts of Romantic cultural history. Neglected issues like the corporeality of mind the role of non linguistic communication and the peculiarly Romantic understanding of cultural universals are reopened in discussions that bring new light to bear on long standing critical puzzles from Coleridge's suppression of Kubla Khan to Wordsworth's perplexing theory of poetic language to Austen's interest in head injury.

The Imagination in Early Modern English Literature Deanna Smid, 2017-08-28 In *The Imagination in Early Modern English Literature* Deanna Smid presents a literary historical account

of imagination in early modern English literature paying special attention to its effects on the body to its influence on women to its restraint by reason and to its ability to create novelty An early modern definition of imagination emerges in the work of Robert Burton Francis Bacon Edward Reynolds and Margaret Cavendish Smid explores a variety of literary texts from Thomas Nashe's *The Unfortunate Traveler* to Francis Quarles's *Emblems* to demonstrate the literary consequences of the early modern imagination The *Imagination in Early Modern English Literature* insists that if we are to call an early modern text imaginative we must recognize the unique characteristics of early modern English imagination in all its complexity

Scottish Medicine and Literary Culture, 1726-1832 Megan J. Coyer, David E. Shuttleton, 2014-11-01 *Scottish Medicine and Literary Culture 1726 1832* examines the ramifications of Scottish medicine for literary culture within Scotland throughout Britain and across the transatlantic world The contributors take an informed historicist approach in examining the cultural geographical political and other circumstances enabling the dissemination of distinctively Scottish medico literary discourses In tracing the international influence of Scottish medical ideas upon literary practice they ask critical questions concerning medical ethics the limits of sympathy and the role of belles lettres in professional self fashioning and the development of medico literary genres such as the medical short story physician autobiography and medical biography Some consider the role of medical ideas and culture in the careers creative practice and reception of such canonical writers as Mark Akenside Robert Burns Robert Fergusson Sir Walter Scott and William Wordsworth By providing an important range of current scholarship these essays represent an expansion and greater penetration of critical vision Megan J Coyer is a Wellcome Trust Research Fellow in Medical Humanities within the School of Critical Studies at the University of Glasgow David E Shuttleton is Reader in Literature and Medical Culture within the School of Critical Studies at the University of Glasgow

Passions, Politics and the Limits of Society Heikki Haara, Koen Stapelbroek, Mikko Immanen, 2020-08-24 The 1st part of the volume engages with the theme of inclusion and exclusion in the history of ideas from different perspectives The 2nd part of the volume discusses debates on natural law human nature and political economy in early modern Europe Its contributions explore the sorts of political and moral visions that were relevant in post Hobbesian moral philosophy and the development of economic thought
