The Last Carpathian Wolf:

The Last Carpathian Wolf Heinz G. Konsalik, 1978 *Why and How the Ice Age Ended & The True History of the Pontic (White) Race* Raven Alb J., 2011-11-16 A complex book which goes from explaining how climate changes based on changing of the earth's axis tilt to the formation of the Indo-European languages first words and the misunderstood part of white race history. This book reveals the unknown part of Indo-European history in Asia which is very wrongly taught today. The evolution of European languages is corrected based on very logical and well documented bases. It is a book that requires intelligence and great curiosity as well as the ability to concentrate because many lexicons are found throughout the book. Any intelligent person will have a very different understanding of earth's history and reason for climate change after reading this book. The book is extremely informative in many fields and the writer expects no mercy from the people who can prove him wrong. Try it.
