The Last Race:

The Final Race Eric Eichinger, 2018 On July 19 1924 Eric Liddell was on top of the world He was the most famous Briton at the time having just won the gold in the Olympic 400 meter race As the storm clouds of World War II rolled in Liddell lived purposefully even as his world crumbled and he experienced the horror and deprivations of a Japanese internment camp

The Last Road Race Richard Williams, 2013-10-17 The story of the 1957 Pescara Grand Prix the last race of the heroic age of motor racing There has been much talk of how Grand Prix motor racing has become rather dull with big name big brand winners ousting out all competition But it wasn't always so Once a romantic sport motor sport produced heroes whose where individual skill and daring were paramount The 1957 Pescara Grand Prix marked the end of an era in motor racing Sixteen cars and drivers raced over public roads on the Adriatic coast in a three hour race of frightening speed and constant danger Stirling Moss won the race beating the great Juan Manuel Fangio in his final full season and ending years of supremacy by the Italian teams of Ferrari and Maserati Richard Williams brings this pivotal race back to life reminding us of how far the sport has changed in the intervening fifty years The narrative includes testaments from the four surviving drivers who competed Stirling Moss Tony Brooks Roy Salvadori and Jack Brabham

The Racing Game Marvin Scott, 2017-07-28 This study of a unique social world probes beneath the thrill and spectacle of horse racing into the lives of the honest boys the gypsies the manipulators the stoops and the Chalk eaters the constituents of race track society and the players of the racing game With scientific precision and journalistic vigor Scott describes the everyday activities the objectives and strategies of those whose lives are organized around track proceedings and who compete with chance and one another The players in the racing game range from track owners to stable boys from law enforcers to lawbreakers and from casual sportsmen to pathologically addicted gamblers Considering the self interests the normative and operational codes and the interactional relationships among the major types and subtypes of participants the author defines the components of strategic movement within the framework of rules and resources to show how a player's relations to the means of production governs his behavior The fruitful application of sociological theory and method to an unusually interesting social context makes this particularly useful still for courses in social problems and the sociology of organizations and of leisure
