The Guelph Seminars On Sustainable Development:

The Guelph Seminars on Sustainable Development Stewart Garvie Hilts, Anthony M. Fuller, University of Guelph. University School of Rural Planning and Development, 1990 The Sustainability of Rural Systems I.R. Bowler, C.R. Bryant, C. Cocklin, 2013-06-29 Economy society and environment comprise the three main dimensions of sustainable development but too often they are considered separately This book by comparison examines the interaction of the three dimensions in the context of rural systems embracing a wide range of topics including globalisation and reregulation in sustainable food production conservation and sustainability the development of sustainable rural communities and sustainable rural urban interaction An international team of geographers drawn from the International Geographical Union's Commission on The Sustainability of Rural Systems summarises the basis of unsustainable rural development in these topics the remedial policies being pursued and their own evaluations of the policies Rather than deal just with generalisations their analyses are illustrated by detailed case studies drawn from a variety of rural systems in both developed and developing countries **The Social Organization of Policy** Lauren E. Eastwood, 2013-11-05 This book provides a specific case study based upon direct research with UN processes which enables the reader to situate larger theoretical arguments regarding civil society globalization and sustainable development within the context of the actual activities of practitioners working within the UN forest policy making arena **Knowledge, Experience, and Ruling** Marie Campbell, Ann Manicom, 1995-12-15 Dorothy Smith is considered one of the most original sociologists and theorists of our time and her writings have attracted much attention in Europe and the US as well as in Canada This collection of original essays written by scholars who worked or studied with Smith exemplifies Smith's approach to social analysis Each author takes an empirical approach Some analyse texts the maps and documents of land use planning photographs an influential history of British India reports of a task force on battered women some draw on interviews with clerical workers with Japanese corporate wives while others an AIDS activist a teacher of adult literacy a social worker reflect on personal experiences In each case we are introduced to specific themes in Smith's approach The essays put Smith's method to work in diverse ways and in the process offer intriguing insights into their topics This tribute to Smith's empowering contribution as a thinker and teacher reveals how empirical studies can illuminate concepts usually presented in the abstract As the first compilation of applications of Smith's methodology this is a landmark work in the developing field of the social organization of knowledge *Recovering Canada* John Borrows, 2017-06-22 Canada is covered by a system of law and governance that largely obscures and ignores the presence of pre-existing Indigenous regimes Indigenous law however has continuing relevance for both Aboriginal peoples and the Canadian state In his in-depth examination of the continued existence and application of Indigenous legal values John Borrows suggests how First Nations laws could be applied by Canadian courts and tempers this by pointing out the many difficulties that would occur if the courts attempted to follow such an approach By contrasting and comparing

Aboriginal stories and Canadian case law and interweaving political commentary Borrows argues that there is a better way to constitute Aboriginal Crown relations in Canada He suggests that the application of Indigenous legal perspectives to a broad spectrum of issues that confront us as humans will help Canada recover from its colonial past and help Indigenous people recover their country Borrows concludes by demonstrating how Indigenous peoples law could be more fully and consciously integrated with Canadian law to produce a society where two world views can co exist and a different vision of the Canadian constitution and citizenship can be created **Medici Women** Jennifer Sumner,Gabrielle Langdon,2006-01-01

Sustainability and the Civil Commons moves beyond rural roots to build a comprehensive understanding of sustainability that combines global reach with local focus *Sustainability and the Civil Commons* Jennifer Sumner,2005-01-01 Sustainability and the Civil Commons moves beyond rural roots to build a comprehensive understanding of sustainability that combines global reach with local focus **Geographical Perspectives on Sustainable Rural Systems** Hiroshi Sasaki,1996

Intensive Agriculture and Sustainability Glen C. Filson,2005-07 As globalization restructures agriculture and rural communities the impacts of increasingly industrialized farming make interdisciplinary analyses of the linkages among the social environmental and economic aspects of farming ever more vital This collection analyzes the reasons for the public s scrutiny of intensive agriculture and the prospects for sustainable farming now that concerns are mounting about food quality manure runoff greenhouse gases extra label use of antibiotics pesticide use and rural conflict Intensive Agriculture and Sustainability outlines the advantages of Farming Systems Analysis for understanding the implications of modern intensive agriculture This book describes some of the major environmental and social problems connected with intensive farming outlines a framework for analyzing its sustainability discusses key linkages among the environmental economic and social indicators outlines modelling trade offs between profitability and environmental sustainability and then analyzes various farming systems using case studies The authors conclude that rural conflict and government regulation are likely to continue unless the public joins with farmers to help fund stewardship practices and stabilize farm incomes This book will appeal to field practitioners agricultural and environmental policy analysts geographers and those scholars and students who are tired of the pervasive production oriented disciplinary focus that typifies most agricultural research *Integrating*
