The Killing of Idi Amin Leslie Watkins, 1976 *The Writing of East and Central Africa* G. D. Killam, 1984 **AF Press Clips**, 1981 *AF Press Clips* United States Department of State. Bureau of African Affairs, 1979 **Middle Eastern Terrorism** Mark Ensulaco, 2012-04-17 Selected by Choice magazine as an Outstanding Academic Title Since the first airplane hijacking by the Popular Front for the Liberation of Palestine in September 1970 Middle Eastern terrorists have sacrificed innocent human lives in the name of ideology From Black September to the Munich Olympics to the embassy bombing in Beirut to the devastating attacks of September 11 and beyond terrorism has emerged as the most important security concern of our time Where did this come from Inspired by a student's question on the morning of September 11 2001 Mark Ensulaco has written a thoroughly researched narrative account of the origins of Middle Eastern terrorism addressing when and why terrorists started targeting Americans and American interests and what led to the September 11 attacks Ensulaco reveals the changing of motivations from secular Palestinian nationalism to militant Islam and demonstrates how competition among terrorists for resources and notoriety has driven them to increasingly extreme tactics As he argues terrorist attacks grew from spectacle to atrocity Drawing on popular works and scholarly sources *Middle Eastern Terrorism* tells this story in rich detail and with great clarity and insight **Student Power in Africa's Higher Education** Frederick K. Byaruhanga, 2013-10-08 This book the first of its kind to treat Uganda provides a historical analysis of the role of student voices in the development of Uganda's higher education It not only chronicles incidents of student protests but also explores and analyses their trigger points as well as the strategies employed by the university the government and the students to manage or resolve those crises In addition the book highlights the role played by national politics in shaping student political consciousness in particular their involvement in protests riots and demonstrations The book therefore limits its scope to the unfolding and impact of student crisis on the process of higher education Byaruhanga recommends that colleges and universities need to increase communication with students as well as promote student involvement in decision and policy making among other things in order to forestall future conflicts Most distinctively the book aims to address the current paucity of research on student activism in Uganda's higher education and highlights the critical need for research on higher education in Africa as a field of study The book also may serve as a base for cross national comparative analysis *Africa and the Americas* Richard M. Juang, Noelle Morrisette, 2008-03-12 This encyclopedia explores the many long standing influences of Africa and people of African descent on the culture of the Americas while tracing the many ways in which the Americas remain closely interconnected with Africa Ranging from the 15th century to the present *Africa and the Americas Culture Politics and History* explores the many ways Africa and African peoples have shaped the cultural life of the Americas and how in turn life in the Americas reverberates in Africa This groundbreaking three volume encyclopedia offers hundreds of alphabetically organized entries on African history nations and peoples plus African influenced aspects of life in the
