The King and Queen . . . a Fairy Tale Renee Catherine,1979 The Book of Story Beginnings Kristin Kladstrup,2013-02-12 Offers mystery adventure and fantasy as well as reflections on family time travel and stories Many readers will find something here to their liking Booklist Oscar Martin was fourteen when he mysteriously disappeared from his Iowa farmhouse in 1914 His sister claimed Oscar had rowed out to sea but how was that possible Nearly a century later when Lucy Martin moves with her parents to that same Iowa farmhouse she discovers the strange and dangerous Book of Story Beginnings and soon Oscar himself reappears in a bizarre turn of events that sends the two distant relatives on a perilous journey From a first time author comes an intricate spellbinding fantasy that lures you in and won t let go **The Queens of Nightmares and Dreams** Victor C. Brice,2011-10-24 King Arthur s royal court and the Knights of the Round Table are established in the 21st Century In an all too brief period of peace Guinevere gives birth to her husband s son and daughter The fallen princess of Cornwall Morgana the renegade Fey summons from the Dark Ages the supreme leader of her dark witch s coven the hellish she demon Rhapsody Morgana s aim is to once again usurp Camelot s throne But Rhapsody has her own secret plans for revenge against humanity and her personal nemesis Vivian the Lady of the Lake and queen of mystic Avalon From the frigid depths of space Rhapsody entices an evil race of aliens to attack planet earth with their futuristic war machines starting with Arthur s new kingdom **News of Norway** ,2005 Invented Worlds Ellen Winner,1982 Cave paintings of our prehistoric ancestors elaborate ritual dances of preliterate tribesmen long lines at the movies earnest scribbles of the three year old next door evidence of human preoccupation with art is everywhere and it is overwhelming But unlike other human universals language tool use the family art makes no material contribution to mankind s survival What impels the artist to the lonely effort at self expression What moves the audience to resonate to the work of a master What accounts for the child s inherent fascination with pictures and stories and songs These questions are among the deepest we can ask about human nature Freud deemed some of them forever unanswerable but modern psychology has made new inroads into these old mysteries Invented Worlds provides a complete authoritative account of this progress Dealing with the three major art forms painting music and literature Ellen Winner shows how the artist fashions a symbolic world that transforms the experience of the observer She probes the adult s ability to create and respond to works of art In addition she examines children s art for what it can reveal about the artistic impulse before adult convention becomes a shaping force Finally in order to reach a better understanding of the biological bases of artistry Winner discusses the art of the mentally disturbed and the neurologically impaired patient The sum of these discussions is more than an up to date handbook to the field it is nothing less than a new synthesis of our understanding of man s artistic nature Written with admirable clarity Invented Worlds is a book that can be used by professionals and students in psychology education and the arts as well as anyone with reason to be curious about the processes that underlie the creation and enjoyment of art *The Advance* ,1911

Stories of the Goddess Marit Clementz, Ingvild Forbord, 2024-05-14 The well known archaeologist Marija Gimbutas found through her excavations and research in Europe from prehistoric times that there have been societies that lived in peace for millennia and where the highest deity was feminine Gimbutas believed women played a central role in the religions and society of what she called ancient Europe In societies where the goddess was the supreme deity life was celebrated not death and men and women were equal People lived in harmony with nature and built their cities on fertile plains The knowledge of a possible peaceful society where the goddess ruled and where the union between man and woman was sacred has made women and men believe that a better world is possible On this background Clementz and Forbord try to find traces of the Great Goddess in symbolism that recurs in myths and fairy tales The book reproduces a selection of these and sheds new light on them with the help of religious historical theory We join the goddess Inanna to the underworld hear the legend of Kuan Yin follow the tracks of the black Madonnas investigate the Grail mysteries look into the Great Goddess of the North and see fairy tales about true love in a new light The interested reader can look forward to many moments of realization in the company of the authors and their interpretations of known and unknown myths and fairy tales all from a female perspective Ingvild Forbord is a teacher with a major in the history of religion Marit Clementz is a teacher and professional storyteller Together they run the Women s Academy which organizes workshops and travels related to the themes in this book They have an online course called Eve s Apples and lead Wise Women Circles online once a month **The**

Childlessness in Bangladesh Papreen Nahar, 2021-09-21 This book examines the intersectionality and stratified lived experience of rural poor and urban middle class childless women in Bangladesh Childless women in Bangladesh an over populated country where fertility control is the primary focus of health policy are all but non existent Papreen Nahar offers an alarming account of stigma abuse ostracism and violence against these women sharing their experiences of marginalisation in a culture that idealises motherhood In such a reality the experience of childlessness particularly for women can be much more severe than what is defined as infertility in the biomedical sense As childlessness is a complex interaction between biology society and culture the book illustrates the ways in which infertility transforms a health problem into social suffering Although Bangladeshi childless women are systematically excluded by various structural forces it appears they do not succumb to their circumstances rather they develop resilience and agency to become survivors of their new albeit bleak lives The volume will be of interest to scholars working in anthropology reproductive and women s health global health gender studies development studies and Asian studies **The Lady's Magazine Or Entertaining**
