The Kurds In Turkey Eu Accession And Human Rights:

The Kurds in Turkey Kerim Yildiz, Noam Chomsky, 2005-08-20 With a foreword by Noam Chomsky this is the most up to date critical analysis of the problems faced by the Kurds in Turkey Turkey has a long history of human rights abuses against its Kurdish population a population that stretches into millions This human rights record is one of the main stumbling blocks in Turkey s efforts to join the EU The Kurds are denied many basic rights including the right to learn or broadcast in their own language This book written by a leading human rights defender provides a comprehensive account of the key issues now facing the Kurds and the prospects for Turkey joining the EU Kerim Yildiz outlines the background to the current situation and explores a range of issues including civil cultural and political rights minority rights internal displacement and the international community s obligations regarding Turkey *The European Union and the Kurdish Issue* Zana A.

Kurda, 2022-08-11 This book focuses on the European Union as an actor involved in the transnational Kurdish issue covering Turkey Iran Iraq and Syria It demonstrates that instead of being simply a humanitarian actor in the issue the EU has considered its bilateral interests with the four states in question as well as its extent of acceptance in approaching the Kurdish issue It has combined its traditional humanitarian normative consideration with its geopolitical interests in relation to strategies related to the four states This book provides a unique perspective on the EU as an actor in the Kurdish issue and from a wider perspective it provides interesting insights into the EU s interactions with geopolitics which has become the topic of a lively scholarly debate in recent years The book is a resource for researchers and students studying the European Union as a global actor and for governmental or non governmental professionals dealing directly with or having interest in the EU and or Kurdish affairs *The European Union and Turkish Accession* Kerim Yildiz, Mark Muller, 2008-03-20 The EU

accession process will shape Turkey s future and in particular its potential to become a pluralist democratic state with respect for international human rights In this timely survey Kerim Yildiz and Mark Muller explain and analyse the process of accession focusing primarily on these associated human rights obligations and the extent of their implementation in Turkey The European Union and Turkish Accession addresses the variety of groups in Turkey who are affected by these negotiations and details the background of the Kurdish people the largest minority group in Turkey and their relationship to the Turkish republic This book is essential for students studying EU enlargement particularly the human rights issues around the Turkish Accession and those interested in the ongoing struggle of the Kurds The Kurds in Iran Kerim Yildiz, Tanyel

Taysi, 2007-02-20 This is one of the first comprehensive accounts of the situation of Kurds in Iran The authors provide an overview of the issues facing Kurds within the country and the way they have been affected by geo political changes in Iran s neighbouring states The book offers a historical overview of Iran s development since WW1 through to the revolution of 1979 the war with Iraq and the emergent state policy towards its Kurdish population It provides a thorough critique of Iran s human rights record especially for minorities and women Yildiz and Taysi address Iran s relationship with its neighbours and

the West the implications of Ahmadinejad's rise to power and the impact of the Islamic state on human rights They analyse Iran's prospects for the future and how the resolution of the Kurdish issue in Iran affects the future of the region as a whole as well as Iran's international policy and relations Turkey and the European Union J. Joseph, 2006-11-28 Turkey and the European Union makes a scholarly contribution to the debate over Turkey's participation in the European integration process and the EU's future enlargement It explores the recent history of EU Turkish relations and looks at the prospects and challenges that Turkey's membership presents to both the EU and Turkey **The Kurds Ascending** M. Gunter, 2011-06-20 This is the first book to be primarily directed at analyzing the evolving solution to the Kurdish problem in Iraq and Turkey Although this solution remains cautiously fragile it does represent a strikingly positive future that until recently seemed so bleak **Routledge Handbook on the Kurds** Michael Gunter, 2018-08-06 With an estimated population of over 30 million the Kurds are the largest stateless nation in the world They are becoming increasingly important within regional and international geopolitics particularly since the 2003 invasion of Iraq the Arab Spring and the war in Syria This multidisciplinary Handbook provides a definitive overview of a range of themes within Kurdish studies Topics covered include Kurdish studies in the United States and Europe Early Kurdish history Kurdish culture literature and cinema Economic dimensions Religion Geography and travel Kurdish women The Kurdish situation in Turkey Iraq Syria and Iran The Kurdish diaspora With a wide range of contributions from many leading academic experts this Handbook will be a vital resource for students and scholars of Kurdish studies and Middle Eastern studies *The Kurds and the Politics of Turkey* Deniz Çifçi, 2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which over simplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds' political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political demands of Kurds By explaining variation among the Kurds' political demands through close analysis of existing and emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse *Constituting the Political Economy of the Kurds* Omer

Tekdemir,2021-04-20 This book examines the development of Kurdish political economy and the emergence of collective Kurdish identity within a historical context through three main periods the late Ottoman Empire the initial Republican Turkey era and then the post 1990s period It relates historical developments to the dynamics of Kurdish society including the anthropological realities of the nineteenth century through the moral economy frame the evolving nature of nationalism in the early twentieth century and the more recent construction of a modern political Kurdishness by means of radical democracy and an agonistic pluralism shaped by left wing populism The Use of Force and Article 2 of the ECHR in Light of European Conflicts Hannah Russell,2017-11-16 Article 2 of the European Convention on Human Rights ECHR in its current form is incomplete and outdated Due to significant development at a legislative and judicial level the right to life spans beyond what is enumerated within Article 2 With the belief that Article 2 is still relevant this book investigates how the right to life can be better protected within Europe It advocates for the modernisation of Article 2 through codifying legislative and judicial developments relevant to this provision in the form of guidelines It also considers the improvements that can be made by the Council of Europe CoE bodies the European Court of Human Rights ECtHR the Committee of Ministers CoM the Parliamentary Assembly of the Council of Europe PACE and the CoE Commissioner for Human Rights to encourage adherence to Article 2 and promote effective remedies to prevent future violations It uses the experience from four internal European conflicts the Basque conflict the Chechen conflict the Northern Ireland Troubles and the Turkish Kurdish conflict to illustrate its points
