What We Talk About When We Talk About Books Leah Price,2019-08-20 Reports of the death of reading are greatly exaggerated Do you worry that you ve lost patience for anything longer than a tweet If so you re not alone Digital age pundits warn that as our appetite for books dwindles so too do the virtues in which printed bound objects once trained us the willpower to focus on a sustained argument the curiosity to look beyond the day s news the willingness to be alone The shelves of the world s great libraries though tell a more complicated story Examining the wear and tear on the books that they contain English professor Leah Price finds scant evidence that a golden age of reading ever existed From the dawn of mass literacy to the invention of the paperback most readers already skimmed and multitasked Print era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions The evidence that books are dying proves even scarcer In encounters with librarians booksellers and activists who are reinventing old ways of reading Price offers fresh hope to bibliophiles and literature lovers alike Winner of the Phi Beta Kappa Christian Gauss Award 2020

Konigsburg, 2011-03-29 In *TalkTalk* E L Konigsburg presents a selection of speeches she has given over a period of 25 years In her introduction to the first speech and to the book as a whole she explains While each of my books has been written because I had a story I wanted to tell these speeches were written because I had something I wanted to say The audience for the former is children for the latter adults I recognize with a measure of amused detachment that some were written as a reaction to trends others to fads I have given these talks in cafeteriums auditoriums and the public rooms of Holiday Inns Even though I have not always been on a stage when addressing an audience I have tried to set the stage Between talk and talk I have written passages connecting the speeches to the time in which they were written and to one another And that is *TalkTalk* Always a thought provoking speaker she has chosen nine speeches that capture the essence of her years as a writer for children When brought together they enrich one another and provide a chance to look back at what children's books have been to observe where they are now and to offer an insightful look at what books may continue to mean to children in the years to come Written by an outstanding author these speeches individually and together represent a vision of the need for books and the role books have played and should continue to play in the lives of children **Science Talk** Daniel Patrick Thurs, 2007 Science news is met by the public with a mixture of fascination and disengagement On the one hand Americans are inflamed by topics ranging from the question of whether or not Pluto is a planet to the ethics of stem cell research But the complexity of scientific research can also be confusing and overwhelming causing many to divert their attentions elsewhere and leave science to the experts Whether they follow science news closely or not Americans take for granted that discoveries in the sciences are occurring constantly Few however stop to consider how these advances and the debates they sometimes lead to contribute to the changing definition of the term science itself Going beyond the issue centered debates Daniel Patrick Thurs examines what these controversies say about how we understand science now and in the future Drawing on his analysis of magazines newspapers journals and other forms of public discourse Thurs describes how science
