Racism in the 21st Century Ronald E. Hall, 2008-08-06 In the post Civil Rights era there is a temptation to assume that racism is no longer the pressing social concern in the United States that it once was The contributors show that racism has not fallen from the forefront of American society but is manifest in a different way According to the authors in this volume in 21st century skin color has come to replace race as an important cause of discrimination This is evidenced in the increasing usage of the term people of color to encompass people of a variety of racial and ethnic backgrounds The editor has compiled a diverse group of contributors to examine racism from an interdisciplinary perspective Contributions range from the science of racism from its perceived biological basis at the end of the 19th century to sociological studies its new forms in the 21st century The result is a work that will be invaluable to understanding the challenges of confronting Racism in the 21st Century *Interdisciplinary Perspectives on Colorism* Ronald E. Hall, 2022-07-22 This timely and unique book explores the concept of colorism which is discrimination based on the color of a person s skin in a world where arguably light skin is privileged over dark and one s wealth health and opportunities are impacted by skin color sometimes irrespective of one s racial background In the context of our multi cultural and increasingly global society and the historical backdrop of slavery the text takes a unique approach by moving from personal anecdotes to adopting a scientific perspective grounded in empirical evidence Hall explores how skin color is a more effective framework for examining prejudice and discrimination as racial identities become increasingly mixed due to inter racial unions and immigration He argues that racism as discrimination by race is contrived polarizing and non quantifiable and that it is often skin color that is used to identify race

often inaccurately With skin color being a visual and physical characteristic with race based prejudices attached to it the author shows how skin color can be a loaded identifier of value and identity In a world where the objective measure of skin color crosses racial boundaries and where race will become increasingly indiscernible over time the ultimate aim of this book is to prepare for the social future of mankind that has already begun to take shape Split into three parts examining historical contemporary and potential future perspectives on colorism this is fascinating reading for students and academics in psychology social work education criminal justice and other social sciences The text will also be useful for providing validation for including colorism into the public domain

The Western Journal of Black Studies, 2009 *'Dying' to be White* Purnima Mehta Bhatt, 2024-08-12 This book examines the phenomenon of colorism in India and the Global South and critically analyses the obsession with fair skin and its association with social capital or mobility. Exploring the prevalence of colorism in India, China, Japan, Vietnam, South Africa, Brazil, Argentina, Kenya and Australia, it traces its roots in history, scriptures, travel narratives, contemporary media and popular culture. How much did colonialism and European imperialism contribute to the desire to be white? How have globalization and the spread of consumer culture and Western ideals of beauty helped exacerbate these issues? The author discusses these questions while looking at the aspirations for beauty and modernity among these societies and the growing popularity of the use of creams, lotions and other methods to whiten the skin as a means to assimilate, emulate the West and gain better prospects and life. Lucid and topical, this book will be an essential read for scholars and researchers of race and colorism, sociology, social history, social anthropology, cultural studies, consumer economics, Asian studies and South Asian studies.

Elite Migrants: South Asian Doctors in the UK Yasmin Ghazala Farooq, 2020-10 This book makes a major contribution to the community cohesion literature and adds a new dimension to our understanding of community cohesion in the UK. Previous research in this area has remained overly focused on the experiences of low semi-skilled migrants. The author provides an analysis of her funded empirical research that investigated the first time the integration experiences of overseas trained South Asian doctors in three different UK geographical locales. She reflects on their experiences from the point of migration to settlement in the UK society and describes this elite group as existing somewhere between privilege and marginalisation. The book highlights how identities are more plural than discourses of belonging often allow. In this excellent work of scholarship, Farooq provides us

with a rich and insightful account of the experiences of a remarkably important migrant group South Asian doctors who came to Britain to work in the NHS This rich and multifaceted work provides a vital and engaging account of this remarkable group Essential reading for anyone interested in the role of migrant workers in the NHS and in the experiences and challenges faced by migrants settling to Britain during the 1960s and 1970s Robert Ford Professor of Political Science University of Manchester UK Dr Farooq s research into the lives and contributions of South Asian doctors working in NHS GP practices in the North of England is insightful as well as timely Her work examines the complex intersections between class race and migration The analysis are supplemented with some wonderful quotes by the doctors on how they responded to their migration journeys and adapted to their local communities and the changing demands of working within the NHS The research provides a unique insight into the experiences of different generations of South Asian GPs who contributed so much to our local communities Tarani Chandola Professor of Medical Sociology University of Manchester UK Often seen as a uniquely British institution the NHS is really an international institution where international medical graduates international nurses and migrant labour have contributed to it its values its identity and its purpose Yasmin Farooq together with her contemporary Julian Simpson who both worked with me to document this history will ensure that future historians will acknowledge and recognise the hidden contribution of these architects and pioneers to British Society and the International NHS Aneez Esmail Professor of General Practice University of Manchester UK Contents Foreword by Aneez Esmail Preface and Acknowledgements Introduction Chapter 1 The Context of Migration Chapter 2 Navigating the UK Medical System upon Arrival Chapter 3 Understanding Entrepreneurship within the General Practice Chapter 4 Integration and Sense of Belonging Chapter 5 Experiences of Racism and Coping Strategies Chapter 6 Discussion and Conclusions Social Issues in Living Color Arthur W. Blume, 2017-02-16 Offering fresh and exciting approaches to solving global problems this book creatively views challenging social issues through the lens of racial and ethnic psychology As the demographic makeup of the American population continues to evolve understanding and addressing the psychological needs of ethnic minorities in the United States becomes more important to the overall health and well being of society This three volume set is the first publication to explicitly tackle social issues from the perspective of racial and ethnic psychology It uniquely presents racial and ethnic psychological perspectives on topics such as media criminal justice racism climate change gender bias and health and mental health disparities Volume one introduces readers to the basic scientific concepts of racial and ethnic minority psychology and then examines the intersectionality of race ethnicity gender and sexual orientation It also addresses how race and ethnicity affect communication styles leadership styles and media The second volume discusses the experiences of individuals within racial and ethnic minorities including overt racism covert racism and colonialism and addresses how ethnic minority psychology plays a role in our educational system poverty global climate change and sustainability The third volume covers ethics in health and research considers the causes of health and mental health disparities and identifies diversity initiatives

that can improve the health and well being of all citizens not just racial and ethnic minority citizens Impact of Diversity on Organization and Career Development Hughes, Claretha,2014-11-30 Today s workforce represents individuals of various backgrounds and experiences The influence of such individuals is becoming an important component in the workplace and researchers continue to explore the challenges of understanding the connection between employee profiles and the overall success of a company Impact of Diversity on Organization and Career Development brings together a reflective discussion on the previous approaches and strategies of companies in relation to the paradigm shift in workplace equity of today s workforce By examining both old and new strategies the research included in this publication will present a unique approach for future company enhancement and employee success This publication is an essential reference source for researchers practitioners managers and students interested in the effects of multicultural representation on both a company and its employees through professional growth and advancement **Worldly Desires** Brian Hu,2018-09-26 Explores how internet use empowers Arab citizens *Hispanic Journal of Behavioral Sciences* ,2011-02 **The Theory and Practice of Third World Solidarity** Darryl C. Pinder,2015-12-27 This book problematizes the ways in which the discourses of colorblindness and post raciality are articulated in the age of Obama Pinder debunks the myth that race does not matter and reconsiders the presumptive hegemony of whiteness through the dialectics of visibility and invisibility of race *From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology* Amina Mire,2025-03-15 From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding

of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly **Philippine Digital Cultures** Cheryll Ruth Soriano, Earvin Charles Cabalquinto, 2025-10-01
