Skin Slave:

From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology Amina Mire, 2025-03-15
From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly

Black and Slave David M. Goldenberg, 2017-05-22
Studies of the Curse of Ham the belief that the Bible consigned blacks to everlasting servitude confuse and conflate two separate origins stories etiologies one of black skin and the other of black slavery This work unravels the etiologies and shows how the Curse an etiology of black slavery evolved from an earlier etiology explaining the existence of dark skinned people We see when where why and how an original mythic tale of black origins morphed into a story of the origins of black slavery and how in turn the second then supplanted the first as an explanation for black skin In the process we see how formulations of the Curse changed over time depending on the historical and social contexts reflecting and refashioning the way blackness and blacks were perceived In particular two significant developments are uncovered First a curse of slavery originally said to affect various dark skinned peoples was eventually applied most commonly to black Africans Second blackness originally incidental to the curse in time became part of the curse itself Dark skin now became an intentional marker of servitude the visible sign of the blacks degradation and in the process deprecating black skin itself

Tharps, 2017-10-03 Weaving together personal stories history and analysis Same Family Different Colors explores the myriad ways skin color politics affect family dynamics in the United States Colorism and color bias the preference for or presumed superiority of people based on the color of their skin is a pervasive and damaging but rarely openly discussed phenomenon In this unprecedented book Lori L Tharps explores the issue in African American Latino Asian American and mixed race families

What's Really Going On? Ronnie Chiles, 2011-11-23 This book reflects poor black America's human condition and cruel reality historically in this country Most poor people and people of color see enough of life's dark side to know for sure what's really going on All of the social double standards and blatant contradictions that continue to define the democratic process for most of America's poor and forgotten people of color still finds the American Dream to be a figment of

their imaginations This book is meant to show how American History is merely his story The powers that be continue to impose their will on much smaller nations decade after decade in the name of freedom and democracy Yet nothing about our might makes right preemptive strike mentalities has changed most poor Americans lifestyles If anything it has merely reduced the level of comfort and security most people in this country live in daily by heightening our nation s risk of being attacked So the fear factor continues to control what really goes on in this country from decade to decade This is why our nation will never be a genuine United States of America
