McAteer, 2009 *The Fall of Berlin* Ian Baxter, 2019-10-30 A photographic history of Nazi Germany's last days The images are well chosen this reviewer cannot recall having seen any before The NYMAS Review By March 1945 the Red Army had closed in on Berlin Marshal Zhukov with almost a million soldiers and 20 000 tanks and guns at his disposal launched his assault of the Seelow Heights While costly with 30 000 Russians killed it brought the Russian Army to the gates of the capital On April 20 Hitler's fifty-sixth birthday Soviet artillery began a massive bombardment of the doomed city The Fuhrer ordered every soldier Hitlerjugend and Volkssturm to fight to the death The house to house fighting that followed was brutal and savage with heavy casualties for both military and civilians Using superb Russian and German imagery this pictorial history describes the Russian assault and

Nazi last ditch defense of Hitler's capital during the final days of the Third Reich **The Battle of Berlin 1945** Tony Le Tissier, 2008-12-08 Tony Le Tissier is arguably the finest English language historian of the Battle of Berlin defence Web The Battle of Berlin was a battle on an unprecedented scale The Soviets massed 1.6 million troops for Operation Berlin and Marshal Zhukov in the centre had half of them but his initial attack floundered lasting four days instead of one It was so costly that he had to revise his plans for taking the city and to revise them yet again when Stalin allowed his rival Marshal Koniev to intervene The battle thus became a contest for the prize of the Reichstag Meanwhile Hitler and his courtiers sought to continue the struggle in the totally unrealistic atmosphere that prevailed in his bunker while soldiers and civilians alike suffered and perished unheeded all around them In The Battle of Berlin 1945 Tony Le Tissier brings us the definitive history of the last great battle of the Second World War a fight to the death in the smouldering ruins of the capital of Hitler's Third Reich **Deathride** John Mosier, 2010-06-15 Originally published as Deathride this is the true story of the Eastern Front in World War II emphasizing how close Germany came to winning and the USSR to losing the severity of the Soviet losses which have been minimized due to Soviet propaganda and the importance of the Allied invasions of North Africa and Sicily among other factors in forcing Hitler to re-deploy troops saving the Soviets from disaster The German invasion of the Soviet Union on June 22 1941 began a war that lasted nearly four years and created by far the bloodiest theater in World War II In the conventional narrative of this war Hitler was defeated by Stalin because like Napoleon he underestimated the size and resources of his enemy In fact says historian John Mosier Hitler came very close to winning and lost only because of the intervention of the western Allies Stalin's great triumph was not winning the war but establishing the prevailing interpretation of the war The Great Patriotic War as it is known in Russia would eventually prove fatal setting in motion events that would culminate in the collapse of the Soviet Union Mosier argues that the Soviet losses in World War II were unsustainable and would eventually have led to defeat The Soviet Union had only twice the population of Germany at the time but it was suffering a casualty rate more than two and a half times the German rate Because Stalin had a notorious habit of imprisoning or killing anyone who brought him bad news and often their families as well Soviet battlefield reports were fantasies and the battle plans Soviet generals developed seldom responded to actual circumstances In this respect the Soviets waged war as they did everything else through propaganda rather than actual achievement What saved Stalin was the Allied decision to open the Mediterranean theater Once the Allies threatened Italy Hitler was forced to withdraw his best troops from the eastern front and redeploy them In addition the Allies provided heavy vehicles that the Soviets desperately needed and were unable to manufacture themselves It was not the resources of the Soviet Union that defeated Hitler but the resources of the West In this provocative revisionist analysis of the war between Hitler and Stalin Mosier provides a dramatic vigorous narrative of events as he shows how most previous histories accepted Stalin's lies and distortions to produce a false sense of Soviet triumph This is the real story of the Eastern Front fresh and different from what we thought we knew

Berlin Soldier Helmut Altner,2016-08-12 This book is an explosive memoir of a 17 year old German boy called up to fight in the last weeks of the Second World War This is a teenager s vivid account of his experiences as a conscript during the final desperate weeks of the Third Reich during which he experienced training immediately behind the front line east of Berlin was caught up in the massive Soviet assault on Berlin from the Oder retreated successfully and then took part in the fight for the western suburb of Spandau where he became one of the only two survivors of his company of seventeen year olds

Germany 1945 Richard Bessel,2012-09-27 In 1945 Germany experienced the greatest outburst of deadly violence that the world has ever seen Germany 1945 examines the country s emergence from the most terrible catastrophe in modern history When the Second World War ended millions had been murdered survivors had lost their families cities and towns had been reduced to rubble and were littered with corpses Yet people lived on and began rebuilding their lives in the most inauspicious of circumstances Bombing military casualties territorial loss economic collapse and the processes of denazification gave Germans a deep sense of their own victimhood which would become central to how they emerged from the trauma of total defeat turned their backs on the Third Reich and its crimes and focused on a transition to relative peace Germany s return to humanity and prosperity is the hinge on which Europe s twentieth century turned For years we have concentrated on how Europe slid into tyranny violence war and genocide this book describes how humanity began to get back out

Marshal Zhukov at the Oder Tony Le Tissier,2021-10-08 In the dying months of the Second World War on 31 January 1945 the first Red Army troops reached the River Oder barely forty miles from Berlin Everyone at Soviet Headquarters expected Marshal Zhukov s troops quickly to bring the war to an end But despite bitter fighting by both sides a bloody stalemate persisted for two months At the end of this time the Soviet bridgeheads north and south of Kustrin were eventually united and the Nazi fortress finally fell Tony Le Tissier has written an impressively detailed account of the Nazi Soviet battles in the Oderbruch and for the Seelow Heights east of Berlin They culminated in 1945 with the last major land battle in Europe that proved decisive for the fate of Berlin and the Third Reich Drawing on official sources and the personal accounts of soldiers from both sides who were involved Le Tissier has meticulously reconstructed the Soviets difficult breakthrough on the Oder the establishment of bridgeheads the battle for the fortress of Kustrin and the bloody fight for the Seelow Heights Numerous maps help the reader follow the ebb and flow of battle and a selection of archive photographs paint a sobering picture of the final death throes of Hitler s Thousand Year Reich

The Devil's General Raymond Bagdonas,2014-01-19 A detailed military biography of the most highly decorated Nazi regimental commander in WWII The most highly decorated German regimental commander of World War II Hyazinth Graf Strachwitz first won the Iron Cross in the Great War He was serving with the 1st Panzer Division when the Polish campaign inaugurated World War II Strachwitz s exploits as commander of a panzer battalion during the French campaign earned him further decorations before he transferred to the newly formed 16th Panzer Division There he participated in the invasion of Yugoslavia and then Operation

Barbarossa where he earned the Knight's Cross. At Stalingrad he reached the Volga and fought on the northern rim of Sixth Army's perimeter. Severely wounded during battle, he was flown out of the Stalingrad pocket and was thus spared the fate of the rest of Sixth Army. Upon recuperation, he was named commander of the Grossdeutschland Division's panzer regiment and won the Swords to the Knight's Cross during Manstein's counteroffensive at Kharkov. Wounded twelve times during the war and barely surviving a lethal car crash, Strachwitz finally surrendered to the Americans in May 1945. Historian Raymond Bagdonas, though impaired by the disappearance of 16th Panzer Division's official records at Stalingrad and the fact that many of the Panzer Graf's later battlegroups never kept them, has written a vividly detailed account of this combat leader's life as well as ferocious armored warfare in World War II.
