of Lake Biwa and that of its residents Miraculously enough this ancient lake has kept its water quality clear even until today despite the fact of more than 14 million people living on its shores Finally the book also gives indispensable information to those engaged in improving and conserving water regimes of lakes and other water bodies all over the world and to those interested in the culture and history of Japan Lake Biwa is not only one of the rarest ancient lakes of the world but the people's involvement with the lake also goes back a long way This is shown in the diverse culture developed in this area and in the various archaeological finds that date back as early as the Jomon Period nearly 10 000 years ago Today Lake Biwa fulfills an important role as a water resource by providing domestic commercial industrial and agricultural water for over 14 million residents living around the Lake Biwa Yodo River drainage basin This updated volume focuses on the geological and biological features of the lake as well as on the long term interactions between the people and the lake
