Slouching Towards Ayodhya:

Slouching Towards Ayodhya : From Congress to Hindutva in Indian Politics Radhika Desai, 2004 The three essays in this volume focussing respectively on the international national and regional aspects of Hindutva provide three successive pictures of Hindutva each as it were closer up than the one before each probing progressively deeper into its dynamics They analyse the structural basis historical roots and political entrenchment of Hindutva and assess the size of the task before the forces who oppose it

Slouching Towards Ayodhya Radhika Desai, 2002 Focussing on Hindutva and its political approach in India

The Long War - Insurgency, Counterinsurgency and Collapsing States Mark T. Berger, Douglas A. Borer, 2013-09-13 The rise and fall of the Cold War coincided with the universalization and consolidation of the modern nation state as the key unit of the wider international system A key characteristic of the post Cold War era in which the US has emerged as the sole superpower is the growing number of collapsing or collapsed states A growing number of states are or have become mired in conflict or civil war the antecedents of which are often to be found in the late colonial and Cold War era At the same time US foreign policy and the actions of other organizations such as the United Nations may well be compounding state failure in the context of the post 9 11 Global War on Terror GWOT or what is also increasingly referred to as the Long War The Long War is often represented as a new era in warfare and geopolitics This book acknowledges that the Long War is new in important respects but it also emphasizes that the Long War bears many similarities to the Cold War A key similarity is the way in which insurgency and counterinsurgency were and continue to be seen primarily in the context of inter state rivalry in which the critical local or regional dynamics of revolution and counter revolution are marginalized or neglected In this context American policy makers and their allies have again erroneously applied a grand strategy that suits the imperatives of conventional military and geo political thinking rather than engaging with what are a much more variegated array of problems facing the changing global order This book provides a collection of well integrated studies that shed light on the history and future of insurgency counterinsurgency and collapsing states in the context of the Long War This book was previously published as a special issue of *Third World Quarterly*

Developmental and Cultural Nationalisms Radhika Desai, 2013-10-18 Premature announcements of the eclipse of nation states under globalization and empire stand exposed as the 21st century s first economic crisis underlines their continuing importance A predominantly cultural study of nationalism was unable to resist the globalization thesis Focusing on selected Asian cases this book argues that nationalisms have always contained political economies as well as cultural politics Placing nation states

centrally in our understanding of modern capitalism it challenges the globalization thesis Rather than eclipse nations and nationalisms have undergone changes under the impact of neoliberalism since the 1970s Classical 20th century developmental nationalisms emphasised citizenship economy and future orientations Later cultural nationalisms Asian values Hindutva Confucianism or Nihonjiron stressed identity culture and past orientations Amid neoliberalism s flagrantly unequal political economy not primarily concerned with material production or productivity they glorified static conceptions of original cultures and identities whether religious ethnic or other and justified inequality as cultural difference In contrast to the popular mobilizations which powered developmental nationalisms cultural nationalisms thrived on neoliberalism s disengagement and disenfranchisement albeit partially compensated by the political baptism of newly enriched groups Extremist wings of cultural nationalism in some countries were a function of this lack of popular support This book was published as a special issue of Third World Quarterly The Rhetoric of Hindutva Manisha Basu,2017 Examines the rise of the urban right wing Hindu nationalist ideology in India called Hindutva between 1984 and 2004 *Social Movements and the State in India* Kenneth Bo Nielsen,Alf Gunvald Nilsen,2016-11-23 Questions of the extent to which social movements are capable of deepening democracy in India lie at the heart of this book In particular the authors ask how such movements can enhance the political capacities of subaltern groups and thereby enable them to contest and challenge marginality stigma and exploitation The work addresses these questions through detailed empirical analyses of contemporary fields of protest in Indian society ranging from gender and caste to class and rights based legislation Drawing on the original research of a variety of emerging and established international scholars the volume contributes to an engaged dialogue on the prospects for democratizing Indian democracy in a context where neoliberal reforms fuel a contradictory process of uneven development Marxism Amiya Bagchi,Amita Chatterjee,2015-06-03 This book offers a unique re conceptualization of Marxism in bringing together leading scholars across disciplines history philosophy economics politics sociology and literary and culture studies into one comprehensive corpus It demonstrates the engaging relevance of the perspectives and techniques of the analyses adopted by Karl Marx Frederick Engels and contemporary Marxists and will be immensely useful to scholars and researchers across social sciences as well as general readers interested in Marxism The Political Economy of Emerging Markets Richard Westra,2017-03-16 Rapid and sustained growth in the twenty first century global economy of large developing economies including Brazil Russia India China and South Africa has captivated policy makers and popular business press pundits alike The coining of the new acronym BRICS and widespread adoption in international economics discourse of the designation emerging markets is symptomatic of that interest The Political Economy of Emerging Markets situates the BRICS phenomena in the global economic context of advanced economies continuing to languish in recession and hovering over a deflationary abyss several years after the meltdown A key question this volume seeks to answer is whether the BRICS and so called emerging market phenomenon is really the new miracle it is presented as offering

new or modified varieties of reloaded capitalist development to the world or yet another mirage Written by ten leading global experts this book answers the tough questions over BRICS and emerging markets potentially realizing new varieties of reloaded capitalism It is not only international and interdisciplinary but uniquely multiperspectival Theories framing chapters are not of one genre but generate theoretical debate at the frontier of knowledge in political economy along with nuanced empirical analysis which flows from it This book is of great importance to those who study political economy development economics and international political economy *The Paradox of Liberation* Michael Walzer, 2015-03-01 Many of the successful campaigns for national liberation in the years following World War II were initially based on democratic and secular ideals Once established however the newly independent nations had to deal with entirely unexpected religious fierceness Michael Walzer one of America's foremost political thinkers examines this perplexing trend by studying India Israel and Algeria three nations whose founding principles and institutions have been sharply attacked by three completely different groups of religious revivalists Hindu militants ultra Orthodox Jews and messianic Zionists and Islamic radicals In his provocative well reasoned discussion Walzer asks why these secular democratic movements have failed to sustain their hegemony Why have they been unable to reproduce their political culture beyond one or two generations In a postscript he compares the difficulties of contemporary secularism to the successful establishment of secular politics in the early American republic thereby making an argument for American exceptionalism but gravely noting that we may be less exceptional today

Globalization and Religious Nationalism in India Catarina Kinnvall, 2007-01-24 Exploring the effects of globalization in India and the problem of identity formation this book contributes to the theoretical and empirical debate on identity globalization religious nationalism and in security The author puts forward a new approach based on political psychology to interpret identity construction which is seen as an individualized process where interactions of the global and the local are intimately implicated Thereby this book presents a psychological analysis of how increased insecurity affects individuals and groups attachments to religious nationalism in an era of globalization Developing an interesting angle on a recognized issue of concern in the politics of South Asia and much more broadly in the context of the contemporary world and developing global politics this is a valuable addition to normative critical social theory and the debate on identity and culture in political science and international relations appealing to an interdisciplinary audience *Development and Dispossession in the Narmada Valley* Judith Whitehead, 2010

Understanding India's New Political Economy Sanjay Ruparelia, Sanjay Reddy, John Harriss, Stuart Corbridge, 2011-03-09 A number of large scale transformations have shaped the economy polity and society of India over the past quarter century This book provides a detailed account of three that are of particular importance the advent of liberal economic reform the ascendance of Hindu cultural nationalism and the empowerment of historically subordinate classes through popular democratic mobilizations Filling a gap in existing literature the book goes beyond looking at the transformations in isolation managing to Explain the empirical linkages between these three

phenomena Provide an account that integrates the insights of separate disciplinary perspectives Explain their distinct but possibly related causes and the likely consequences of these central transformations taken together By seeking to explain the causal relationships between these central transformations through a coordinated conversation across different disciplines the dynamics of India's new political economy are captured Chapters focus on the political economic and social aspects of India in their current and historical context The contributors use new empirical research to discuss how India's multidimensional story of economic growth social welfare and democratic deepening is likely to develop This is an essential text for students and researchers of India's political economy and the growth economies of Asia The ^APolitical Psychology of Globalization Catarina Kinnvall, Paul Nesbitt-Larking, 2011-07-29 In an increasingly globalized world there are new economic strategic cultural and political forces at work The Political Psychology of Globalization Muslims in the West explores how these shifts and shocks have influenced the way in which Muslim minorities in six western countries form their identities as political actors The authors uncover three identity strategies adopted by Muslims in the West retreatism essentialism and engagement **Democracy and Civil Society in Asia: Volume 1** F. Quadir, J. Lele, 2004-03-31 This edited volume brings together a number of well known scholars and activists from various parts of the world to present critical perspectives on recent and long term trends in the economic socio cultural and political life of the people of Asia and examines the policies and constraints faced by the nation states of the region It contributes to and enriches the current debates on globalization the prospects for democracy and sustainable human development The book offers an incisive assessment of the role of civil society in creating a democratic political culture in Asia Narratives of Gendered Dissent in South Asian Cinemas Alka Kurian, 2012 This book conducts a post colonial gendered investigation of women centred South Asian films In these films the narrative becomes an act of political engagement and a site of feminist struggle a map that weaves together multiple strands of subjectivity gender caste race class religion and colonialism The book explores the cinematic construction of an oppositional narrative of feminist dissent with a view to elaborate a historical understanding and theorisation of the materiality and politics of the everyday struggle of Indian women The book analyzes the ways that cultural workers have tended to use subversive narratives as a tool of resistance Narratives that are political ideological classed raced and gendered offer the focus of this exploration Through strategies of disclosure and documentation of memory personal experiences and imaginary events shaped by the larger historical political and cultural contexts these discursive texts engage in the processes of struggle against a plethora of oppression caste class religion patriarchal sexual and neo colonial The study looks at the manner in which through their creative and aesthetic interventions South Asian film makers enable the articulation of an alternative gendered subjectivity as well as constitute the ground for personal and collective empowerment Films discussed include Shyam Benegal's Nishaant Nandita Das Firaq Beate Arnestad's My Daughter the Terrorist and Sarah Gavron's Brick Lane *New Cultural Identitarian Political Movements in Developing Societies*

Sebastian Schwecke, 2012-12-06 Applying an intercultural and comparative theoretical approach across Asia and Africa this book analyses the rise and moderation of political movements in developing societies which mobilise popular support with references to conceptions of cultural identity The author includes not only the Hindu nationalist movement but also many Islamist political movements in a single category New Cultural Identitarian Political Movements NCIPM Demonstrating significant similarities in the pattern of evolution between these and European Christian Democracy the book provides an instrument for the analysis of these movements outside the parameters of the fundamentalism debate The book looks at a number of key variables for understanding the evolution of NCIPM and it goes on to analyse the transition of developing societies from rent based political economies to capitalism and the partial failure of this transition process It argues that there is a need to incorporate economic and class analysis in the study of political processes in developing societies against the continuing emphasis on cultural factors associated with the cultural turn of social sciences The book is an interesting contribution to studies in South Asian Politics as well as Comparative Politics
