**Old-Time Music and Dance** John Bealle, 2005-08-31 In the summer of 1972 a group of young people in Bloomington Indiana began a weekly gathering with the purpose of reviving traditional American old time music and dance In time the group became a kind of accidental utopia a community bound by celebration and deliberately void of structure and authority In this joyful and engaging book John Bealle tells the lively history of the Bloomington Old Time Music and Dance Group how it was formed how it evolved its unique culture and how it grew to shape and influence new waves of traditional music and dance Broader questions about the folk revival movement social resistance counter culture authenticity and identity intersect this delightful history More than a story about the people who forged the group or an extraordinary convergence of talent and creativity Old Time Music and Dance follows the threads of American folk culture and the social experience generated by this living tradition of music and dance **Music in the Mountains** Kara Rogers Thomas, 2004 This thesis investigates the role traditional music plays in shaping and solidifying concepts of regional identity in Western North Carolina The genres of traditional American music encompassed by this study include Ballads Old Time

Music and Bluegrass Despite the ubiquity of these traditions across the national landscape all three genres are recognized both within and beyond the Southeast as being representative of a Southern Appalachian ethos This work investigates the causes for such deep associations between music and place Four years of fieldwork and observation including the author's active participation with the region's Folk Heritage Committee which hosts traditional music events through the summer months provides this study's methodological framework In brief this work examines the multiple traditional music communities in Asheville North Carolina and the surrounding area provides biographical sketches of a small sampling of area musicians and shows how individual musicians and distinctive traditional music communities merge at area festivals to reify concepts of regionalism It finds that the designation of Ballads Old Time Music and Bluegrass Music as Southern Appalachian regional music is both constructed and affirmed by the interplay between outsiders and insiders conceptualizations of regional identity
