

POLITICAL BEHAVIOR

- Politics in micro and macro levels of social life
- Individual strategies for cooperation, conflict resolution, pursuing interests, even strategies towards family members and relatives
- As the social surrounding grows bigger, individuals' choices, attitudes and behaviors become more "political" in its true meaning

Small Groups Political Behavior

Rachel Sandford

Small Groups Political Behavior:

The Handbook of Political Behavior Samuel Long, 2013-11-11 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters

Small Groups and Political Behavior Sidney Verba, 1972 Contents Acknowledgments I Introduction II The Primary Groups and Politics III Experiments and the Political Process 1 The Culture of the Laboratory IV Experiments and the Political Process 2 Bridging the Gap V The Concept of Leadership VI Leadership Affective and Instrumental 1 VII Leadership Affective and Instrumental 2 VIII Leadership and the Norms of the Group IX The Participation Hypothesis 1 Application of a Small Group Finding X The Participation Hypothesis 2 The Generality of a Small Group Finding XI A Concluding Note Bibliography Index Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

THE LOGIC OF COLLECTIVE ACTION Mancur OLSON, 2009-06-30 This book develops an original theory of group and organizational behavior that cuts across disciplinary lines and illustrates the theory with empirical and historical studies of particular organizations Applying economic analysis to the subjects of the political scientist sociologist and economist Mancur Olson examines the extent to which individuals who share a common interest find it in their individual interest to bear the costs of the organizational effort

Political Organizations James Q. Wilson, 2021-02-09 A major work by one of America's eminent political scientists Political Organizations has had a profound impact on how we view the influence

of interest groups on policymaking James Wilson wrote this book to counter two ideas that popular interests will automatically generate political organizations and that such organizations will faithfully mirror the opinions and interests of their members Moreover he demonstrated that the way in which political organizations including parties business groups labor unions and civil rights associations are created and maintained has a profound impact on the opinions they represent and the tactics they use Now available for the first time in paperback this book has broadened its scope to include recently developed organizations as it addresses many of today's concerns over the power of such groups as special interest lobbies In 1973 when this book was first published the press and public were fascinated by the social movements of the 1960s thinking that the antiwar and civil rights movements might sweep aside old fashioned interest group lobbies Wilson argued however that such movements would inevitably be supplanted by new organizations ones with goals and tactics that might direct the course of action away from some of the movements founding principles In light of the current popular distress with special interest groups and their supposed death grip on Congress Wilson again attempts to modify a widely held view He shows that although lobbies have multiplied in number and kind they remain considerably constrained by the difficulty they have in maintaining themselves

Political Psychology And Foreign Policy Eric Singer, Valerie M Hudson, 2020-02-24 First published in 1992 One of the issues of particular interest to political psychologists centers around how foreign policy decisions are made The psychological phenomena that political psychologists examine have to do with how individuals perceive interpret feel about and react to their environment The political factors have to do with the activities involved in governing or the making of public policy that is with how the material and human resources of a collectivity are allocated The research presented in this volume addresses 6 key questions that link psychological and political processes and the chapters are organized around three conceptual clusters perception studies personality studies and studies of group dynamics

The Future of Political Science Gary King, Kay L. Schlozman, Norman Nie, 2009-03-15 This book contains some of the newest most exciting ideas now percolating among political scientists from hallway conversations to conference room discussions To spur future research enrich classroom teaching and direct non specialist attention to cutting edge ideas a distinguished group of authors from various parts of this sprawling and pluralistic discipline has each contributed a brief essay about a single novel or insufficiently appreciated idea on some aspect of political science The one hundred essays are concise no more than a few pages apiece and informal While the contributions are highly diverse readers can find unexpected connections across the volume tracing echoes as well as diametrically opposed points of view This book offers compelling points of departure for everyone who is concerned about political science whether as a scholar teacher student or interested reader

The Oxford Handbook of American Elections and Political Behavior Jan E. Leighley, 2012-02-16 The Oxford Handbooks of American Politics are the essential guide to the study of American political life in the 21st Century With engaging contributions from the major figures in the field The Oxford Handbook of American Elections and Political

Behavior provides the key point of reference for anyone working in American Politics today **Social Logic Of Politics**

Alan Zuckerman, 2005-01-26 Using classic theories and methodologies this collection maintains that individuals make political choices by taking into account the views preferences evaluations and actions of other people who comprise their social networks These include family members friends neighbors and workmates among others The volume re establishes the research of the Columbia School of Electoral Sociology from several decades ago and contrasts it with rational choice theory and the Michigan School of Electoral Analysis Written by political scientists with a range of interests this volume returns the social logic of politics to the heart of political science **Introduction to Political Psychology** Martha L. Cottam, Beth Dietz-Uhler, Elena Mastors, Thomas Preston, Beth Dietz, 2010-01-21

This comprehensive user friendly introductory textbook to political psychology explores the psychological origins of political behavior The authors introduce readers to a broad range of theories concepts and case studies of political activity to illustrate that behavior The book examines many patterns of political behaviors including leadership group behavior voting race ethnicity nationalism terrorism war and genocide It explores some of the most horrific things people do to one another for political purposes as well as how to prevent and resolve conflict and how to recover from it The goal is to help the reader understand the enormous complexity of human behavior and the significant role political psychology can play in improving the human condition The book contains numerous pedagogical features including text boxes highlighting current and historical events to help students see the connection between the world around them and the concepts they are learning Different research methodologies used in the discipline are employed such as experimentation and content analysis The Political Being is used throughout to remind the reader of the psychological theories and concepts to be explored in each chapter New to the second edition is coverage of recent political events including the 2008 US presidential election Darfur Iraq and Afghanistan There are now separate chapters on race ethnic conflicts terrorism and conflict resolution In addition instructor resources are available online This accessible and engaging introductory textbook is suitable as a primary text on a range of upper level courses in political psychology political behavior and related fields including policymaking **Political Psychology in International Relations** Rose

McDermott, 2009-12-22 This outstanding book is the first to decisively define the relationship between political psychology and international relations Written in a style accessible to undergraduates as well as specialists McDermott's book makes an eloquent case for the importance of psychology to our understanding of global politics In the wake of September 11 the American public has been besieged with claims that politics is driven by personality Saddam Hussein Osama bin Laden Kim Chong Il Ayatollah Khomeini America's political rogues gallery is populated by individuals whose need for recognition supposedly drives their actions on the world stage How does personality actually drive politics And how is personality in turn formed by political environment Political Psychology in International Relations provides students and scholars with the analytical tools they need to answer these pressing questions and to assess their implications for policy in a real and

sometimes dangerous world Competitive Comrades Susan L. Shirk, 2023-04-28 *Competitive Comrades* Career Incentives and Student Strategies in China provides a nuanced analysis of the complexities within China's educational institutions and examines the evolution of student behavior in response to political pressures and career incentives. Focusing on the period between 1960 and 1966, the book delves into the high stakes world of Chinese high schools where the distribution of opportunities, especially under Mao's virtocratic policies, produced a unique blend of ambition and moral posturing. The book argues that Maoist policies, which sought to fuse political virtue with academic performance, created an intense atmosphere of competition that encouraged students to balance their academic and political ambitions with social strategies that would ensure their success. Unlike meritocracies or traditional hierarchies, this virtocratic system intensified the stakes of student relationships and loyalty while paradoxically fostering political cynicism and alienation from the state, a contradiction at the heart of the Maoist vision of revolutionary successors. Through detailed interviews with former students, *Competitive Comrades* reveals how students navigated these pressures, showing that rather than fostering cooperation and ideological alignment, Mao's policies often drove students toward strategic adaptations aimed at self-preservation and advancement. This exploration of the social and behavioral implications of virtocracy provides critical insights into post-revolutionary Chinese society and presents a comparative framework relevant to other regimes governed by similar principles of moral-based selection. Ideal for scholars of Chinese history, political sociology, and education studies, *Competitive Comrades* sheds light on the unintended consequences of revolutionary moral ambitions on youth culture and social cohesion in Communist China. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1982.

Handbook of Organizations (RLE: Organizations) James March, 2013-06-26 This book charts the state of organizational research and theory during the 1960s. A compendium of results, references, concepts, ideas, and theories, this Handbook will be of interest to both academics in organizational theory and managers facing operating problems of organizations.

Masters of Political Science Donatella Campus, Gianfranco Pasquino, 2009-09-01 For a while now, political science as a discipline has been big enough in terms of the number of academics and analytically mature enough to justify reflections on and reviews of its achievements. In fact, there is no lack of general handbooks, dictionaries, and state-of-the-art assessments as well as reflective journals such as the ECPR's own *European Political Science*, which are useful in helping us to understand and evaluate where we currently are and where we might still need to go. The focus of these texts, however, is on particular concepts, themes, research areas, institutions, or behaviour. What they rarely do is indulge in a critical reflection on the political scientists themselves, especially those who are commonly accepted as having made the most significant contributions to the growth of their discipline. This book fills an important gap in the growing reflective

literature on the political science discipline it consists of a series of objective profiles of the Masters of Political Science written by political scientists who have read and studied their work and who are therefore in a position to evaluate the nature of their contributions The Masters Robert Dahl Anthony Downs David Easton S E Finer Samuel P Huntington Juan J Linz Seymour Martin Lipset Giovanni Sartori Sidney Verba Aaron Wildavsky Hans Morgenthau Masters of Political Science was originally published in Italian by il Mulino Publishing House The Political Influence of Churches Paul A.

Djupe, Christopher P. Gilbert, 2009 Abstract International Law Richard A. Falk, Saul H. Mendlovitz, Samuel S.

Kim, 1966-01-01 International Law **Political Behavior** United States. Department of State. External Research Staff, 1963

The Psychology of Political Behavior in a Time of Change Jan D. Sinnott, Joan S. Rabin, 2020-10-23 This volume seeks to add a unique perspective on the complex relationship between psychology and politics focusing on three analytical points of view 1 psychology politics and complex thought 2 bio psycho social factors of masculinity and power and 3 underlying factors in political behavior Contributors examine recent political events worldwide through a psychological lens using interdisciplinary approaches to seek a deeper understanding of contemporary political ideas psychologies and behaviors Finally the book offers suggestions for surviving and thriving during rapid political change Among the topics discussed Biopsychological factors of political beliefs and behaviors Understanding political polarization through a cognitive lens Impact of psychological processes on voter decision making Motivations for believing in conspiracy theories Nonverbal cues in leadership Authoritarian responses to social change The Psychology of Political Behavior in a Time of Change is a timely and insightful volume for students and researchers in psychology political science gender studies business and marketing and sociology as well as those working in applied settings practitioners government workers NGOs corporate organizations Invisible Politics Hanes Walton, 1985-06-30 With a view that behavioralism has distorted perceptions of black political activity Hanes Walton Jr here reformulates the assumptions of behavioralism to arrive at a more realistic understanding of the political actions of black Americans Considering the cultural and historical events that have shaped black lives Walton examines voting patterns socialization and the development of political opinion his analysis of leadership includes not only legislative and judicial leaders but also leaders of those organizations so influential in black political culture civil rights churches and grassroots organizations Whether he looks at how local politics have changed through the years of civil rights action or how blacks ideas on foreign policy have developed Walton provides a long needed reassessment of the role of black participation in American politics The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a comeback It was studied intensively not only by political scientists but also by political sociologists and psychologists Sovietologists political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s Thereafter the field lost its way with the rise of structuralism neo institutionalism and rational choice approaches to the study of politics government and governance Recently however

students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes The list of topics is nigh endless elections conflict management public policy government popularity development governance networks and regional integration In the media age leaders are presented and stage managed spun DDLas the solution to almost every social problem Through the mass media and the Internet citizens and professional observers follow the rise impact and fall of senior political officeholders at closer quarters than ever before This Handbook encapsulates the resurgence by asking where are we today It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines It meets the urgent need to take stock It brings together scholars from around the world encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines methods and regions It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural institutional and interpretive approaches It covers formal office based as well as informal emergent political leadership and in both democratic and undemocratic polities **African American Politics in Rural America** E. Ike Udogu, 2006-08-31 This timely work examines minority and ethnic politics in rural America and other democratic societies and how the majority versus minority political competition is played out in society Unlike most books on national state and local governments African American Politics in
