Joseph, Maud Mthembu, Camille Huggins, 2025-04-28 This book highlights the challenges with respect to climate change in the Global South. It demonstrates what has been happening in varying countries in this geographic location and how sustainable adaptation interventions could be used to alleviate these challenges. Most countries in the Global South are extremely vulnerable and unprepared for the present and future impact of climate change. Some climate change events that are presently plaguing these locations are extreme weather events such as flooding, food insecurity, disasters, and droughts. The book provides case studies and interventions that can be a source to others who are seeking to find solutions to these adverse climate change events.

**Bibliography of Natural History Travel Narratives** Anne S. Troelstra, 2017-06-01 Anne Troelstra's fine bibliography is an outstanding and ground-breaking work. He has provided the academic world with a long-needed bibliographical record of human endeavour in the field of the natural sciences. The travel narratives listed here encompass all aspects of the natural world in every part of the globe but are especially concerned with its fauna, flora, and fossil remains. Such eyewitness accounts have always fascinated their readers but they were never written solely for entertainment. Fragmentary though they often are, these narratives of travel and exploration are of immense importance for our scientific understanding of life on earth, providing us with a window on an ever-changing and often vanishing natural world. Without such records of the past, we could not track, document, or understand the significance of changes that are so important for the study of zoogeography. With this book, Troelstra gives us a superb overview of natural history travel narratives. The well over four thousand detailed entries, ranging over four centuries and all major western European languages, are drawn from a wide range of sources and include both printed books and periodical contributions. While no subject bibliography by a single author can attain absolute completeness, Troelstra's work is comprehensive to a truly remarkable degree. The entries are arranged alphabetically by author and chronologically by the year of first publication under the author's name. A brief biography with the scope and range of their work is given for each author; every title is set in context; the contents, including illustrations, are described; and all known editions and translations are cited. In addition, there is a geographical index that cross-refers between authors and the regions visited, and a full list of the bibliographical and biographical sources used in compiling the bibliography.

*Foreign Direct Investment as a Tool for Poverty Reduction in Developing Countries* Ronald K.S. Wakyereza, 2019-10-15 The textbook experience of poverty can be witnessed in a number of developing countries in Sub Saharan Africa South East Asia and Latin America Accordingly Foreign Direct Investment FDI has been identified as an important tool for poverty reduction as it is noted to accelerate economic growth and employment in a nation and is currently an essential issue for countries such as Uganda This book finds that Ragnar s 1953 Vicious Circle of Poverty remains undisputed even today showing that attracting FDI is not the end but that a nation s absorption capacity is equally paramount The implications of the FDI frog leap theory for developing countries and the Community Capital Absorption Capacity Development CCACD framework provide plausible poverty reduction approaches in the 21st century Without such measures bringing an end to poverty is likely to elude governments and multinational corporations in developing countries
