The A to Z of American Theater James Fisher, Felicia Hardison Londré, 2009-09-02 The 50 year period from 1880 to 1929 is the richest era for theater in American history certainly in the great number of plays produced and artists who contributed significantly but also in the centrality of theater in the lives of Americans As the impact of European modernism began to gradually seep into American theater during the 1880s and quite importantly in the 1890s more traditional forms of theater gave way to futurism symbolism surrealism and expressionism American playwrights like Eugene O'Neill George Kelly Elmer Rice Philip Barry and George S Kaufman ushered in the Golden Age of American drama The A to Z of American Theater Modernism focuses on legitimate drama both as influenced by European modernism and as impacted by the popular entertainment that also enlivened the era This is accomplished through a chronology an introductory essay a bibliography and hundreds of cross referenced entries on plays music playwrights great performers like Maude Adams Otis Skinner Julia Marlowe and E H Sothern producers like David Belasco Daniel Frohman and Florenz Ziegfeld critics architects designers and costumes

not despite but rather because of their contentious and not always admiring relationship that they were able so powerfully to influence history In *Architecture's Odd Couple* Howard deftly traces the historical threads connecting the two men and offers readers a distinct perspective on the era they so enlivened with their designs Featuring many of the structures that defined modern space from Fallingwater to the Guggenheim from the Glass House to the Seagram Building this book presents an arresting portrait of modern architecture's odd couple and how they shaped the American landscape by shaping each other
