## **Smokestack Diplomacy:**

*Smokestack Diplomacy* Robert G. Darst, 2001-01-02 Many environmental problems cross national boundaries and can be addressed only through international cooperation In this book Robert Darst examines transnational efforts to promote environmental protection in the USSR and in five of its successor states Russia Ukraine and the Baltic republics of Estonia Latvia and Lithuania from the late 1960s to the present The core of the book is a comparative study of three key issues nuclear power safety transboundary air pollution and Baltic Sea pollution Although expectations were high that the end of the Cold War and the breakup of the Soviet Union would lead to increased East West environmental cooperation the opposite has been true Russia and the other successor states have generally agreed to address such problems only when paid to do so Darst finds that post Cold War environmental cooperation has been most successful when there is an overlap between the environmental and economic interests of the successor states and those of their Western neighbors and when the foundation for cooperation was laid during the Cold War period The book is based on extensive original field research including interviews with diplomats government officials scientists and environmental activists in the successor states and Western Europe Its findings underscore the importance of the domestic and international political context in which international environmental policy making occurs It also deepens our understanding of the opportunities and dangers of positive inducements as a tool of international environmental policy

Global Environmental Assessments Ronald Bruce Mitchell, 2006 A comparative analysis of global environmental assessments shows the importance of policy salience scientific credibility and social and political legitimacy in determining the influence of scientific assessments on global environmental policy

**Water in Social Imagination**, 2017-01-05 Water in Social Imagination considers how human communities have known imagined and shaped water and how water has shaped both material culture and the imagination Essays from diverse perspectives offer histories of water at different scales from community water wells and sacred springs to Siberian rivers and the regulated space of the Baltic Sea From early modernization through Soviet style technological optimism to contemporary environmentalism water's ideological uses are multiple With sustained attention not just to state policy and the technologies of high modernity but to creative resistance to utilitarian imaginations these essays insist on fluidities of meaning ambiguities that derive both from water's physical mutability and from its dual nature as life necessity and agent of destruction

Pollution and Atmosphere in Post-Soviet Russia Lars Rowe, 2020-12-10 This study addresses the many initiatives to decrease industrial pollution emitting from the Pechenganikel plant in the northwestern corner of Russia during the final

years of the Soviet Union and examines the wider implications for the state of pollution control in the Arctic today By examining the efforts of Soviet industry and government agencies Finnish and Swedish officials and Norwegian environmental authorities to curb industrial pollution in the region this book offers an environmental history of the Arctic as well as a transnational geopolitical history *Animal Industries* Taina Syrjämaa, Marja Jalava, Taija Kaarlenkaski, Otto Latva, Eeva Nikkilä, Tuomas Räsänen, 2024-04-01 This book examines an extremely topical phenomenon the massive industrial exploitation of animals from a previously neglected perspective It explores the history and development of animal industries in Nordic countries from their establishment in the late nineteenth century to the present day These countries are often considered to be progressive and advanced in animal protection but consumption practices in this area are actually excessive in relation to planetary resources and are among the most unsustainable on a global scale If we want to understand current problems it is essential to be aware of long term changes and continuities as well as the diversity of animals that have been exploited The purpose of this book is to explain these changes and provide new knowledge for scholars in human animal studies decisionmakers and the general public **Historical Dictionary of the Russian Federation** Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia **The Power of Systems** Eglė Rindzevičiūtė, 2016-12-15 In *The Power of Systems* Eglė Rindzevičiūtė introduces readers to one of the best kept secrets of the Cold War the International Institute of Applied Systems Analysis IIASA an international think tank established by the US and USSR to advance scientific collaboration From 1972 until the late 1980s IIASA was one of the very few permanent platforms where policy scientists from both sides of the Cold War could work together to articulate and solve world problems A rare zone of freedom communication and negotiation East West scientists co produced computer simulations of the long term world future using global modeling to explore the possible effects of climate change and nuclear winter Their concern with global issues also became a vehicle for transformation inside the Soviet Union *The Power of Systems* explores how computer modeling cybernetics and the systems approach challenged Soviet governance by undermining the linear notions of control on which Soviet governance was based and creating new objects and techniques of government *Chernobyl* Serhii Plokhyy, 2018-05-15 A Chernobyl survivor and the New York Times bestselling author of *The*

Gates of Europe mercilessly chronicles the absurdities of the Soviet system in this vividly empathetic account of the worst nuclear accident in history Wall Street Journal On the morning of April 26 1986 Europe witnessed the worst nuclear disaster in history the explosion of a reactor at the Chernobyl Nuclear Power Plant in Soviet Ukraine Dozens died of radiation poisoning fallout contaminated half the continent and thousands fell ill In Chernobyl Serhii Plokhyy draws on new sources to tell the dramatic stories of the firefighters scientists and soldiers who heroically extinguished the nuclear inferno He lays bare the flaws of the Soviet nuclear industry tracing the disaster to the authoritarian character of the Communist party rule the regime's control over scientific information and its emphasis on economic development over all else Today the risk of another Chernobyl looms in the mismanagement of nuclear power in the developing world A moving and definitive account Chernobyl is also an urgent call to action

**State Making and Environmental Cooperation** Erika Weinthal, 2002 A study of the relationship between environmental cooperation and state building in post Soviet Central Asia [Saving the Sacred Sea](#) Kate Pride Brown, 2018-03-01 Lake Baikal in Siberia is a global treasure ecologically unique and local environmentalists have been striving for decades to protect it Spanning the Soviet post Soviet divide their activism has engaged globalization neoliberalism and resurgent authoritarianism under Putin Ultimately this book examines how this dynamic struggle provides a new understanding and theory of contemporary civil society [Giving Aid Effectively](#) Mark T. Buntaine, 2016-04-01 In Giving Aid Effectively Mark T Buntaine argues that countries that are members of international organizations have prompted multilateral development banks to give development and environmental aid more effectively by generating better information about performance To reach this conclusion he employs a systematic analysis of responses to evaluations and in depth case studies about the use of information at multilateral development banks

**Climate Change and American Policy** John R. Burch, Jr., 2016-08-26 Climate change has long been a contentious issue even before its official acknowledgment as a global threat in 1979 Government policies have varied widely from Barack Obama's dedication to environmentalism to George W Bush's tacit minimizing of the problem to Republican officials refusal to acknowledge the scientific evidence supporting anthropogenic climate change Presented chronologically this collection of important policy shaping documents shows how the views of both advocates and deniers of climate change have developed over the past four decades

**Institutional Analysis and Economic Policy** Marc R. Tool, Paul Dale Bush, 2012-12-06 The purpose of this volume is to demonstrate how contemporary institutional economic analysis can be applied to the resolution of economic problems All of the essays in this book challenge the conventional wisdom in the problem areas addressed They advocate policy positions that often run contrary to views widely held by academic economists and policy makers alike The general literature of institutional economics is unorthodox beginning with its methodological foundations and continuing through the kind of policy analysis found in these pages The orthodox tradition in economics is commonly characterized as neoclassical economics Neoclassical economics fosters the myth that only the market can efficiently allocate a society's economic resources and equitably

distribute its income It provides the intellectual defense for in which free markets are championed over democratic capitalist ideology policy formation which it contends is neither efficient nor equitable For both professional economists and policy makers of a conservative political persuasion neoclassical economics writes the script for a morality play in which the market is the good guy and the government is the bad guy As such it undermines the belief that free societies can enhance economic welfare through the use of democratic processes in the formulation of economic policies

**International Politics in the Arctic** Geir Hønneland, 2017-10-30 As the ice around the Arctic landmass recedes the territory is becoming a flashpoint in world affairs New trade routes cutting thousands of miles off journeys are available and the Arctic is thought to be home to enormous gas and oil reserves The territorial lines are new and hazy This book looks at how Russia deals with the outside world vis a vis the Arctic Given Russia's recent bold foreign policy interventions these are crucial issues and the realpolitik practiced by the Russian state is essential for understanding the Arctic's future Here Geir Honneland brings together decades of cutting edge research investigating the political contexts and international tensions surrounding Russia's actions Honneland looks specifically at region building and environmental politics of fishing and climate change on nuclear safety and nature preservation and also analyses the diplomatic relations surrounding clashes with Norway and Canada as well as at the governance of the Barents Sea The Politics of the Arctic is a crucial addition to our understanding of contemporary International Relations concerning the Polar North

**The A to Z of the Green Movement** Miranda Schreurs, Elim Papadakis, 2009-09-21 Human beings have been concerned about nature and their place in it for millennia Disquiet about the consequences of human action on the natural environment date back to the ancient Greeks and Romans The efforts of the green movement can be traced back to the 19th century In this period individuals groups and organizations began campaigning for the conservation and preservation of natural areas and the protection of wildlife species Efforts to combat pollution also began It was not until the 1960s however that the green movement in its more modern incarnation emerged The green movements that arose at this time maintained the concerns with conservation preservation and industrial pollution held by earlier generations but added to their agenda new issues including justice equality participatory democracy and sustainability The A to Z of the Green Movement provides a detailed and comprehensive overview of green parties and movements green issues and green concepts This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on countries in the world where green parties or proto parties have formed green movement organizations major international environmental conferences and green concepts This useful reference will be greatly valued by students academics journalists and policymakers alike

**Other Animals** Jane T. Costlow, Amy Nelson, 2010-08-15 The lives of animals in Russia are intrinsically linked to cultural political and psychological transformations of the imperial Soviet and post Soviet eras Other Animals examines the interaction of animals and humans in Russian literature art and life from the eighteenth century until the present The chapters explore the unique nature of the

Russian experience in a range of human animal relationships through tales of cruelty interspecies communion and compassion and efforts to either overcome or establish the human animal divide Four themes run through the volume the prevalence of animals in utopian visions the ways in which Russians have incorporated and sometimes challenged Western sensibilities and practices such as the humane treatment of animals and the inclusion of animals in urban domestic life the quest to identify and at times exploit the physiological basis of human and animal behavior and the ideological implications of these practices and the breakdown of traditional human animal hierarchies and categories during times of revolutionary upheaval social transformation or disintegration From failed Soviet attempts to transplant the seminomadic Sami and their reindeer herds onto collective farms to performance artist Oleg Kulik s scandalous portrayal of Pavlov s dogs as a parody of the Soviet new man to novelist Tatyana Tolstaya s post cataclysmic future world of hybrid animal species and their disaffection from the past *Other Animals* presents a completely new perspective on Russian and Soviet history It also offers a fascinating look into the Russian psyche as seen through human interactions with animals
