Merritt,Ruth Anne Matinko,1987-01-01 From the tiny shrew to the black bear Pennsylvania s hills and valleys are teeming with sixty three species of wild mammals Many of these animals are rarely seen except when pursued by an interested biologist mammologist or nature photographer Now with the publication of this book student scholar and nature lover alike will have a ready reference to distinguish between a deer mouse and a white footed

mouse to identify raccoon tracks and to learn about Pennsylvania's other inhabitants. An attractive backpack size volume written in lively prose, the *Guide to the Mammals of Pennsylvania* opens with a short introduction to Pennsylvania's environment and the characteristics defining a mammal. The bulk of the book consists of species accounts of the mammals grouped into families and orders. Each account includes a short list of data, a Pennsylvania range map, a North American range map, and a narrative of the physical, ecological, and behavioral characteristics of the species. Exciting photographs of each of the species in its natural habitat, 17 in color, and drawings of animal tracks are especially useful for identification, and a glossary and a bibliography provide definitions and references for the serious reader. Naturalists, whether amateur or professional, will find the book useful in the field; it will be an indispensable tool in the classroom.

**The Snowshoe Hare and the Robin** Ingrid Moberger Sanborn, 2016-05-05 From the safety of her home under a boathouse, Henrietta watches the other snowshoe hares hop on the lush green grass and forage for plantains. She's a little scared venturing out into the wide world means exposing herself to coyotes, eagles, and other predators. When Henrietta gathers the courage to leave the boathouse, she meets Rupert, a robin. Hare and bird strike up an immediate friendship. Rupert may have wings, but it's Henrietta who dreams of travel. She wants to sail across the beautiful deep Bras d'Or Lake to explore the mountains on the other side. Rupert thinks his friend is better off where she is, but when she asks for help, he gives it willingly. After all, friends are there to support and help each other. What Rupert and Henrietta don't realize is that robins and snowshoe hares live very different lives. A change is coming with the seasons, one that threatens to separate the two friends. Accompanied by author Ingrid Moberger Sanborn's evocative sumi-e ink paintings, *The Snowshoe Hare and the Robin* grew out of Sanborn's observations of animal life in her home in Cape Breton, Nova Scotia.

His knowledge, experience, and sense of humour combine to transform technical biological studies on moose, wolves, fish, and other creatures of the wild into entertaining and inviting stories without losing the significance of the research.
