

Demographic Accounting Equations

- Equation used for evaluating population change on global and sub global levels.
- At the global level, the CBR and CDR are the only two factors in the equation of change.
- At the sub global level, **immigration and emigration** are taken into account.

Global Population Accounting Equation

P_0 = Size of population at *start* of interval of measurement

P_1 = Size of population at *end* of interval of measurement

B = Number of births during interval of measurement

D = Number of deaths during interval of measurement

$$P_1 = P_0 + B - D$$

Subglobal Population Accounting Equation

P_0 = size of population at *start* of interval of measurement

P_1 = Size of population at *end* of interval of measurement

B = Number of births during interval of measurement

D = Number of deaths during interval of measurement

I = Number of immigrants moving *into* region during interval of measurement

E = Number of emigrants *exiting* region during interval of measurement

$$P_1 = P_0 + B - D + I - E$$

Social And Demographic Accounting:

Social and Demographic Accounting Geoffrey J. D. Hewings, Moss Madden, 2009-01-11 This book provides a state of the art account of developments and applications of social accounts a technique for modeling national and regional economies The contributors address issues of new formulation of social accounts of applications in economics and demography and of specification at both national and regional levels Relationships between social accounts models and computable general equilibrium models of national and regional economies are explored and interregional considerations are addressed

Social Accounting Systems F. Thomas Juster, Kenneth C Land, 2013-09-03 Social Accounting Systems Essays on the State of the Art contains essays prepared during a workshop aimed at the development and promulgation of objectives for future work on social accounting and the making of recommendations to achieve them by evaluating existing demographic and time based accounting models The essays describe and evaluate the state of the art of extant empirically based approaches to social accounting The book opens with an overview chapter that describes the organizations of the Workshop on Social Accounting Systems at which the essays were presented and discussed the nature of the tasks assigned to authors and the major themes of workshop discussions This is followed by separate chapters on time based social accounting systems and demographic accounting how subjective social indicators can be related to social accounting systems and general evaluations of the systems described in the previous chapters This book will be primarily of interest to social scientists and statisticians concerned with the development and integration of national data systems and with social indicator analyses They also will be germane to the interests of students of contemporary social change and the quality of life Methods of Interregional and

Regional Analysis Walter Isard, Iwan J. Azis, Matthew P. Drennan, Ronald E. Miller, Sidney Saltzman, Erik Thorbecke, 2017-07-05 This landmark textbook introduces students to the principles of regional science and focuses on the key methods used in regional analysis including regional and interregional input output analysis econometrics regional and spatial programming and industrial and urban complex analysis gravity and spatial interaction models SAM and social accounting welfare analysis and applied general interregional equilibrium models The coherent development of the materials contained in the set of chapters provides students with a comprehensive background and understanding of how to investigate key regional problems For the research scholar this publication constitutes an up to date source book of the basic elements of each major regional science technique More significant it points to new directions for future research and ways interregional and regional analytic approaches can be fused to realise much more probing attacks on regional and spatial problems a contribution far beyond what is available in the literature *National Accounting and Economic Policy* Nancy D. Ruggles, Richard Ruggles, 1999-01-01 Richard Ruggles often assisted by Nancy Ruggles has been a major contributor to national income accounting and to the empirical study of microeconomics and macroeconomics using that and other data He has focused on the quantitative analysis of actual economic systems in a discipline increasingly preoccupied with abstract

pure conceptual models Like the work of Simon Kuznets and others Ruggles's analyses encompass an unusually wide range of variables Warren J Samuels Michigan State University US This volume reflects the pioneering contribution of Nancy and Richard Ruggles to the development of national accounts It provides a comprehensive overview of the evolution of national accounting systems over the last 50 years A Demographic Approach to Social Accounting Marilyn M. McMillen, 1981

The Economic Accounts of the United States United States. Office of Business Economics, 1972 The Measurement of Saving, Investment, and Wealth Robert E. Lipsey, Helen Stone Tice, 2008-04-15 There is probably no concept other than saving for which U S official agencies issue annual estimates that differ by more than a third as they have done for net household saving or for which reputable scholars claim that the correct measure is close to ten times the officially published one Yet despite agreement among economists and policymakers on the importance of this measure huge inconsistencies persist Contributors to this volume investigate ways to improve aggregate and sectoral saving and investment estimates and analyze microdata from recent household wealth surveys They provide analyses of National Income and Product Account NIPA and Flow of Funds measures and of saving and survey based wealth estimates Conceptual and methodological questions are discussed regarding long term trends in the U S wealth inequality age wealth profiles pensions and wealth distribution and biases in inferences about life cycle changes in saving and wealth Some new assessments are offered for investment in human and nonhuman capital the government contribution to national wealth NIPA personal and corporate saving and banking imputation

REFLECTIONS ON THE SUBJECT OF ECONOMIC STATISTICS DONG QIU, 2018-10-26 This anthology is Professor Dong Qiu's reflections on economic statistics and related research It includes economic statistics and economic reality the connotation and extension of modern economic statistics the reconstruction of economic statistics after the Cultural Revolution and economic statistics at home and abroad The main viewpoints in the book adhering to the broad view of scientific culture and opposing the concept of only mathematics adhering to the international vision and not blindly following the so called mainstream of science more attention paying to methodology than to the application of methods adhering to the spirit of academic criticism Doubts being raised in places where people do not doubt

Understanding and Interpreting Economic Structure Geoffrey J.D. Hewings, Michael Sonis, Moss Madden, Yoshio Kimura, 2013-06-29 In 1976 volume 116 of the Lecture Notes in Economics and Mathematical Systems appeared in the library of the University of Illinois The title of the book Input Output Analysis and the Structure of Income Distribution was sufficiently intriguing to one of the present editors Hewings to command attention Some years later during the First World Congress of the Regional Science Association in Cambridge Massachusetts in 1980 Madden and Batey presented some of their work using their now familiar demographic economic modeling system Discussion ensued about the relationship between this system Miyazawa's formulation and the social accounting matrices most closely associated with the work of Stone During a year's residence at the University of Illinois Batey was able to produce a valuable typology of multipliers that

began the process of integrating these several modeling systems into a coherent package Thereafter a number of regional scientists have exploited the ideas and insights proposed by Miyazawa especially the notion of the interrelational income multiplier and the ideas of internal and external multipliers **Social Indicators** ,1980 Introductory material and statistical tables on 11 topics e g public safety social participation and use of leisure time Appendixes include sources used and glossary Index **A History of National Accounting** André Vanoli,2005 In A History of National Accounting Andre Vanoli focuses on the history of accounting in the second part of the 20th century The book is about the relations between economic theories and the observation of the present and the past looked at from the viewpoint of economic measurement Some parts of the book are especially devoted to the French experience in this field but the point of view is deliberately universal The publication is about The birth of national accounting The evolution of systems of accounts and accounting issues in the perspective of international harmonization National accounts as a statistical synthesis Concepts and their relations with economic theory Uses and status of national accounting Summaries of Projects Completed National Science Foundation (U.S.), **Demographic Accounting and Model-building** Richard Stone,1971 **Summaries of Projects Completed in Fiscal Year ...** ,1979 **Development Economics Research Trends** Gustavo T. Rocha,2008 Development economics is a branch of economics which largely deals with the economic aspects of the development process in developing countries with a focus on methods of promoting economic growth while also dealing with the economic social political and institutional mechanisms both public and private necessary to bring about rapid and large scale improvements in levels of living for the peoples living in developing countries This new book presents the latest research in this growing field **Economic Activity and Land Use The Changing Information Base for Local and Regional Studies** Michael J. Healey,2014-10-13 Concerned primarily with statistical data this text aims to provide a guide to the nature uses availability and limitations of the main data sources for interpreting and undertaking regional studies of economic activity It also considers the methods used for the collection of this data Productivity: Postwar U.S. economic growth Dale W.
