Portrait Stories Michal Peled Ginsburg, 2014-12-15 What makes stories about portraits so gripping and unsettling *Portrait Stories* argues that it is the ways they problematize the relation between subjectivity and representation Through close readings of short stories and novellas by Poe James Hoffmann Gautier Nerval Balzac Kleist Hardy Wilde Storm Sand and Gogol the author shows how the subjectivities of sitter painter and viewer are produced in relation to representations shaped by particular interests and power relations often determined by gender as well as by class She focuses on the power that can accrue to the painter from the act of representation often at the expense of the portrait's subject while also exploring how and why this act may threaten the portrait painter's sense of self Analyzing the viewer's relation to the portrait she demonstrates how portrait stories problematize the very act of seeing and with it the way subjectivity is constructed in the field of vision

Confounding Images Susan S. Williams, 2016-11-11 Susan Williams recovers the literary and cultural significance of early photography in an important rereading of American fiction in the decades preceding the Civil War The rise of photography occurred simultaneously with the rapid expansion of magazine publication in America and Williams analyzes the particular role that periodicals such as Godey's Lady's Book Burton's Gentleman's Magazine and Atkinson's Casket played in defining how photography was received At the center of the book are readings of a stunning array of fiction by forgotten and canonical writers alike including Edgar Allan Poe Louisa May Alcott and Sarah Hale as well as extended interpretations of Nathaniel Hawthorne's *House of the Seven Gables* and *The Marble Faun* and Herman Melville's *Pierre* In a concluding section Williams offers a view of the fictional portrait in the later nineteenth century when the proliferation of

illustrated books once again transformed the relation between word and image in American culture

A Geography of Victorian Gothic Fiction Robert Mighall, 2003 This is the first major full length study of Victorian Gothic fiction Combining original readings of familiar texts with a rich store of historical sources A Geography of Victorian Gothic Fiction is an historicist survey of nineteenth century Gothic writing from Dickens to Stoker Wilkie Collins to Conan Doyle through European travelogues sexological textbooks ecclesiastic histories and pamphlets on the perils of self abuse Critics have thus far tended to concentrate on specific angles of Gothic writing gender or race or the belief that the Gothic returned at the so called fin de siècle Robert Mighall by contrast demonstrates how the Gothic mode was active throughout the Victorian period and provides historical explanations for its development from late eighteenth century through the Urban Gothic fictions of the mid Victorian period the Suburban Gothic of the Sensation vogue through to the somatic horrors of Stevenson Machen Stoker and Doyle at the century's close Mighall challenges the psychological approach to Gothic fiction which currently prevails demonstrating the importance of geographical historical and discursive factors that have been largely neglected by critics and employing a variety of original sources to demonstrate the contexts of Gothic fiction and explain its development in the Victorian period

Portrait of the Artist and His Mother in Twentieth-Century Italian Culture Daniela Bini, 2020-11-05 The power exercised by the mother on the son in Mediterranean cultures has been amply studied Italy is a special case in the Modern Era and the phenomenon of Mammismo italiano is indeed well known Scholars have traced this obsession with the mother figure to the Catholic cult of the Virgin Mary but in fact it is more ancient What has not been adequately addressed however is how Mammismo italiano has been manifested in complex ways in various modern artistic forms Portrait of the Artist and His Mother in Twentieth Century Italian Culture focuses on case studies of five prominent creative personalities representing different sometimes overlapping artistic genres Luigi Pirandello Pier Paolo Pasolini Dino Buzzati Carlo Levi Federico Fellini The author examines how the mother son relationship not only affected but actually shaped their work Although the analysis uses mainly a psychological and psychoanalytical critical approach the belief of the author substantiated by historians anthropologists and sociologists is that historical and cultural conditions contributed to and reinforced the Italian character This book concludes with an analysis of some examples of Italian film comedies such as Fellini's and Monicelli's where mammismo vitellonismo is treated with a lighter tone and a pointed self irony

Art in the Cinematic Imagination Susan Felleman, 2010-01-01 Bringing an art historical perspective to the realm of American and European film Art in the Cinematic Imagination examines the ways in which films have used works of art and artists themselves as cinematic and narrative motifs From the use of portraits in Vertigo to the cinematic depiction of women artists in Artemisia and Camille Claudel Susan Felleman incorporates feminist and psychoanalytic criticism to reveal individual and collective perspectives on sex gender identity commerce and class Probing more than twenty films from the postwar era through contemporary times Art in the Cinematic Imagination considers a range of structurally significant art objects artist

characters and art world settings to explore how the medium of film can amplify reinvent or recontextualize the other visual arts. Fluently speaking across disciplines, Felleman's study brings a broad array of methodologies to bear on questions such as the evolution of the Hollywood Love Goddess and the pairing of the feminine with death on screen. A persuasive approach to an engaging body of films, *Art in the Cinematic Imagination* illuminates a compelling and significant facet of the cinematic experience.

Portraits of Resistance Jennifer Van Horn, 2022-01-01 A highly original history of American portraiture that places the experiences of enslaved people at its center. This timely and eloquent book tells a new history of American art: how enslaved people mobilized portraiture for acts of defiance. Revisiting the origins of portrait painting in the United States, Jennifer Van Horn reveals how mythologies of whiteness and of nation building erased the aesthetic production of enslaved Americans of African descent and obscured the portrait's importance as a site of resistance. Moving from the wharves of colonial Rhode Island to antebellum Louisiana plantations to South Carolina townhouses during the Civil War, the book illuminates how enslaved people's relationships with portraits also shaped the trajectory of African American art post-*emancipation*. Van Horn asserts that Black creativity, subjecthood, viewership, and iconoclasm constituted instances of everyday rebellion against systemic oppression. *Portraits of Resistance* is not only a significant intervention in the fields of American art and history but also an important contribution to the reexamination of racial constructs on which American culture was built.
