Sixty Upanishads of the Veda Paul Deussen, 1997-09-01 **The Principal Upanishads**, 2012-01-01 This is a beautiful translation of the sacred writings of Hinduism which predate recorded history and is perhaps the greatest of all the books in the history of world religions *The Cult of Emptiness* Urs App, 2012 Pt I Sixteenth century Translation hazards The zen shock The Buddha's progress Chaos and the God of Zen Valignano's lectures and Catechism Buddhist philosophy God's Samadhi Pt II Seventeenth century Oriental Ur philosophy Rodriques Pan Asian religion Kircher Buddha's deathbed confession The common ground Navarrete Pan Asian philosophy Bernier The merger Le Clerc Bernier From Pagan to Oriental philosophy Philosophical archaeology Burnet Zoroaster's lie Jacob Thomasius Ur Spinozism Bayle [The Classical Upanishads](#) Signe Cohen, 2024-01-26 The Upanishads are rich and complex Sanskrit Hindu scriptures dating back to the 8th century BCE and are a staple of world religion courses across the globe Where most survey textbooks present a cursory overview of these texts Signe Cohen provides a nuanced but accessible exploration of the thirteen Classical Upanishads that will benefit both scholars students and general readers alike *The Divine Library* Rufus C. Camphausen, 1992-06 Succinctly describes 140 sacred texts dating from the earliest times to the present in relation to the cultures that created them **Hindu-Christian Dialogue** Mariasusai Dhavamony, 2021-11-15 Dialogue is an integral part of the mission of the Christian church The immensity of the ocean of Hindu doctrine and thought presents a significant obstacle to Christians who have been invited by the Roman Catholic Church to scrutinize the divine Mystery present in other religions Many fascinated by Hindu mysticism confuse permanent Hindu beliefs with certain current Western religious movements India's quest for the divine embodies multiple forms Its millennia old methods of meditation and varieties of asceticism often confuse those who are less inclined to experience of an inner spiritual nature This book attempts to address some of these difficulties and questions It is the author's belief that in the Hindu Christian encounter the Christian believer will also rediscover the originality and newness of the Christian revelation viz the intervention of God in the history of salvation whereby God reveals his salvific love in Jesus Christ Possessing expert knowledge of both Hinduism and Christianity the author approaches the Hindu Christian dialogue with sympathy and discernment *Encyclopedia of Hinduism* Denise Cush, Catherine A. Robinson, Michael York, 2012-08-21 The Encyclopedia of Hinduism contains over 900 entries reflecting recent advances in scholarship which have raised new theoretical and methodological issues as well as identifying new areas of study which have not been addressed previously The debate over the term Hinduism in the light of post Orientalist critiques is just one example of how once standard academic frameworks have been called into question Entries range from 150 word definitions of terms and concepts to 5 000 word in depth investigations of major topics The Encyclopedia covers all aspects of Hinduism but departs from other works in including more ethnographic and contemporary material in contrast to an exclusively textual and historical approach It includes a broad range of subject matter such as historical developments among them nineteenth

and twentieth century reform and revival geographical distribution especially the diaspora major and minor movements philosophies and theologies scriptures deities temples and sacred sites pilgrimages festivals rites of passage worship religious arts sculpture architecture music dance etc religious sciences e g astrology biographies of leading figures local and regional traditions caste and untouchability feminism and women s religion nationalism and the Hindu radical right and new religious movements The history of study and the role of important scholars past and present are also discussed Accessibility to all levels of reader has been a priority and no previous knowledge is assumed However the in depth larger entries and the design of the work in line with the latest scholarly advances means that the volume will be of considerable interest to specialists The whole is cross referenced and bibliographies attach to the larger entries There is a full index Volume 2 of the Collected Works of Marie-Louise von Franz Marie-Louise von Franz,2021-11-01 The Collected Works of Marie Louise von Franz is a 28 volume Magnum Opus from one of the leading minds in Jungian Psychology Volume 1 released on her 106th birthday is to be followed by 27 more volumes over the next 10 years Volume 2 turns to the Hero s Journey within fairytales The Hero s Journey is about the great adventure that leads to a cherished and difficult to obtain prize In these fairytales the Self is often symbolized as that treasured prize and the hero s travails symbolize the process of individuation In its many manifestations the hero embodies the emerging personality In the conscious world the hero is only one part of the personality the despised part and through his attachment to the Self in the unconscious is a symbol of the whole personality Von Franz s prodigious knowledge of fairytales from around the world demonstrates that the fairytale draws its root moisture from the collective realm This volume continues where Volume 1 left off as von Franz describes the fairytale suspended between the divine and the secular worlds creating a mysterious and pregnant tension that requires extreme power to withstand The resistance of the great mother against the hero and his humble origins as well as the hero freeing the anima figure from the clutches of the unconscious are universal archetypal patterns The spoils retrieved by the hero symbolize new levels of consciousness wrested from the unconscious

Upaniads are among the most sacred foundational scriptures in the Hindu religion. Composed from 800 BCE onwards and making up part of the larger Vedic corpus, they offer the reader knowledge, lessons on life, death, and immortality. While they are essential to understanding Hinduism and Asian religions more generally, their complexities make them almost impenetrable to anyone but serious scholars of Sanskrit and ancient Indian culture. This book is divided into five parts: Composition, authorship, and transmission of the Upaniads; The historical, cultural, and religious background of the Upaniads; Religion and philosophy in the Upaniads; The classical Upaniads; and The later Upaniads. The chapters cover critical issues such as the origins of the Upaniads, authorship, and redaction, as well as exploring the broad religious and philosophical themes within the texts. The guide analyzes each of the Upaniads separately, unpacking their contextual relevance and explaining difficult terms and concepts. *The Upaniads: A Complete Guide* is a unique and valuable reference source for undergraduate religious studies, history, and philosophy students and researchers who want to learn more about these foundational sacred texts and the religious lessons in the Hindu tradition.
