The Triumph over the Mediocre Self Dr. Talib Kafaji, 2013-08-26 Normally we come to the world from parents who are not educated in the way they raise us Often our parents dump their pathology on us and keep us struggling in our lives to free ourselves from such burdens Following that we enter the outside world and we observe a lot of dysfunctions in society We then continue to sail through the journey of our lives with painful dysfunctions We become confused frustrated less happy and disappointed in ourselves and in the world around us because we have not being taught or guided to discover who we are and to know our true essence We have not been provided the right tools to manage our lives effectively The way we learned to do things is merely trial and error Furthermore among all other species human beings take longer to be independent from parents or caregivers We need more time to mature so we can rely on ourselves Therefore a book such as this can be useful to guide us through the labyrinth of our lives
