The Five "Confucian" Classics Michael Nylan, 2008-10-01 The Five Classics associated with Confucius formed the core curriculum in the education of Chinese literati throughout most of the imperial period In this book Michael Nylan offers a sweeping assessment of these ancient texts and shows how their influence spread across East Asia Nylan begins by tracing the formation of the Five Classics canon in the pre Han and Han periods 206 B C A D 220 revising standard views on the topic She assesses the impact on this canon of the invention of a rival corpus the Four Books in the twelfth century She then analyzes each of the Five Classics discussing when they were written how they were transmitted and edited in later periods and what political historical and ethical themes were associated with them through the ages Finally she deliberates on the intertwined fates of Confucius and the Five Classics over the course of the twentieth century and shows how the contents of the Five Classics are relevant to much newer concerns **The Great Wall of Confinement** Philip F. Wu, 2004-08-17 China is so big and so diverse that as in the proverbial blind man touching an elephant contemporary descriptions that vary dramatically can all be true Few visitors to glittering Shanghai or Shenzhen for example will get any impression of the gaping gray maw of the government's prison camp system that Philip Williams and Yenna Wu basing themselves on a vast range of Chinese sources illuminate in erudite detail The authors look at every facet of the camps place them within China's historical tradition and compare them with modern analogues Throughout literary and autobiographical sources give the feel for the deadening world of the camps Perry Link author of *The Uses of Literature Life in the Socialist Chinese Literary System* *The Great Wall of Confinement* deals with issues ranging from the legal grounding or the lack of any of the Chinese concentration camp system to its technical implementation its discursive manifestation and its physical as well as psychological impact A book like this is long overdue With this work Williams and Wu have made an important contribution to the fields of Chinese legal and literary studies David Der wei Wang author of *The Monster That Is History* *The Great Wall of Confinement* is an excellent book It synthesizes an already significant corpus of writings on Chinese prisons and labor camps marshals an array of literary sources as essential historical source materials and compares the literature of Chinese incarceration with its Soviet and European counterparts The value of this important study stems equally from its

tone a rare combination of a level headed quality with a very fine sensitivity to the human tragedy recounted in this literature Jean Luc Domenach author of *O va la Chine Where does China Go* The Great Wall of Confinement has attempted to lift part of the veil on China's long lasting tragedy the use of imprisonment torture forced labor against its citizens whether criminals feeble minded or simply political opponents The angle is new the question is to find out how Chinese have written on this subject whether in fiction or reportage the way they went about telling their stories how much they said or withheld Through Philip Willams and Yenna Wu's thought provoking analysis of such writings of the cultural origins of forced labor and imprisonment in imperial and Communist China one comes closer to this sinister reality which remains to this day one of the best kept secrets of our planet Marie Holzman President of the Association Solidarit Chine Chinese Ethics in a Global Context Karl-Heinz Pohl,Anselm Müller,2022-04-19 How do Chinese and Western ethical traditions interact today In this collection of articles both Chinese and Western scholars carefully examine the issue one of fundamental importance for the mutual understanding between China and the West The volume is the result of the second symposium which focused on a dialogue between China and the West on questions of ethics in particular concerning their commensurability and a possible common ground The first part of the book discusses general problems of ethics in a cross cultural context followed by articles on ethical bases of Chinese and Western societies respectively Further topics range from moral traditions in the context of social transformation in China today to developments in Western societies politics education and religion The last part deals with controversial issues such as human rights vs human duties and medical ethics **The Economic Contract Law of China** Pitman B. Rural China Jie Fan, Thomas Heberer, Wolfgang Taubmann, 2015-05-15 This book reports the findings of two field studies conducted between 1993 and 2001 in seven townships and six provinces in China The authors describe the process of rural urbanization and its related economic social and political changes by focusing mainly on the zhen town in addition to administrative offices and companies involved in the local economy and village committees The authors show that the social changes resulting from China's economic reforms are occurring mainly from below and that this process is also resulting in a weakening of the economic and political dominance of the central government Other changes discussed in this study include the development of new ownership structures and the increasing dominance of the private sector a shift in the functions of administrative offices as the bureaucracy becomes increasingly business oriented the rise of a new local elite a rebirth of traditional social structures clans local associations and the emergence of new interest groups and institutions to represent their needs

**The Politics Of East Asia** John E. Endicott, William R. Heaton, 2019-07-16 This is the first undergraduate text on the politics of East Asia to be published since 1970 Looking at both domestic and international politics the authors discuss the political systems of China Japan and Korea within the context of environmental factors culture society the economy geography language historical and political traditions etc The People's Republic of China is presented as a country with strong traditions committed to rapid development under frequently changing ideological auspices Its two governmental apparatuses the party and the bureaucracy sometimes act in unison sometimes are locked in fierce struggles and often are motivated by differing ideologies and administrative dynamics Japan is

seen as a mature society and a developed economy with functioning democratic institutions and a strong party system but like the PRC subject to powerful traditions and influenced by radical ideologies Both North and South Korea are discussed with a comparison and contrast of the authoritarian democratic system in the South where a basically democratic parliament finds itself in conflict with a quasi dictatorial regime and an all powerful president The book is completely up to date The section on China takes into account the major developments of the post Mao period including the accession of Hua Kuo feng and the struggle against the Shanghai faction The discussion of Japanese politics covers the 1976 elections and the creation of the Shin Jiyu club in the developing thrust away from factional politics to an issue oriented electorate
