Small Worlds Warren F. Motte, 1999-01-01 Small Worlds examines the minimalist trend in French writing from the early 1980s to the present Warren Motte first considers the practice of minimalist in other media such as the plastic arts and music and then proposes a theoretical model of minimalist literature Subsequent chapters are devoted to the work of a variety of contemporary French writers and a diversity of literary genres In his discussion of minimalism Motte considers smallness and simplicity a reduction of means and the resulting amplification of effect immediacy directness clarity repetition symmetry and playfulness He argues that economy of expression offers writers a way of renovating traditional literary forms and allows them to represent human experience more directly Motte provides close readings of novels by distinguished contemporary French writers including Edmond Jabes Annie Ernaux Herve Guibert Marie Redonnet Jean Echenoz Olivier Targowla and Emmanuele Bernheim demonstrating that however diverse their work may otherwise be they have all exploited the principle of formal economy in their writing Warren Motte is a professor of French at the University of Colorado Boulder Playtexts Ludics in Contemporary Literature Nebraska 1995 is his most recent book

Realism and Space in the Novel, 1795-1869 Rosa Mucignat, 2016-04-01 Posing new questions about realism and the creative power of narratives Rosa Mucignat takes a fresh look at the relationship between representation and reality As Mucignat points out worlds evoked in fiction all depend to a greater or lesser extent on the world we know from experience but they are neither parasites on nor copies of those realms Never fully aligned with the real world stories grow out of the mismatch between reality and representation those areas of the fictional space that are not located on actual maps but still form a fully structured imagined geography Mucignat offers new readings of six foundational texts of modern Western culture Goethe s Wilhelm Meister s Apprenticeship Jane Austen s Mansfield Park Alessandro Manzoni s The Betrothed Stendahl ss The Red and the Black Charles Dickens s Great Expectations and Gustave Flaubert s Sentimental Education Using these texts as source material and supporting evidence for a new and comprehensive theory of space in fiction she examines the links between the nineteenth century novel s interest in creating substantial life like worlds and contemporary developments in science art and society Mucignat s book is an evocative analysis of the way novels marshal their technical and stylistic resources to produce imagined geographies so complex and engrossing that they intensify and even transform the reader s experience of real life places
