sadly informed him that his only hope was to live on pain meds and survive with his 80 year old like bones until his body gave up In other words all hope seemed lost for him But wait a minute He realized the mistake he had made All along he had entrusted his life and health to the hands of doctors who did not necessarily know it all since they were not in his shoes It was time to take back power and begin searching for answers himself The tremendous response he got that has led him to this very moment is we are what we eat Food enables us to do everything including the formation of cells brain development processing our thoughts feelings and emotions and every other body process you can conceive What s more the food doesn t have to be bitter to be better as most people like to claim Shawn presents us with a curious and intriguing thought Perhaps pleasure in food has been a missing ingredient for most diets resulting in a loss of crucial nutritional benefits Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book
