On Christmas Eve 1999 all the Jews in the world die in a strange millennial plague, with the exception of the firstborn males who are soon adopted by a cabal of powerful people in the American government. By the following Passover however only one is still alive: Benjamin Israelien, a kindly innocent ignorant man-child. As he finds himself transformed into an international superstar, Jewishness becomes all the rage, matzo ball soup is in every bowl, sidelocks are hip, and the only truly Jewish Jew left is increasingly stigmatized for not being religious. Since his very existence exposes the illegitimacy of the newly converted Israelien, he becomes the object of a worldwide hunt. Meanwhile in the not too distant future of our own real world another last Jew, the last living Holocaust survivor, sits alone in a snowbound Manhattan, providing a final melancholy witness to his experiences in the form of the punch lines to half-remembered jokes      *The Uncivilized Races, Or, Natural History of Man* John George Wood, 1870
