Shaw, Sheldon Campbell, 1974 **Footprints** M.A. Baderoen, 2012-07-01 Historical novel based on Cape Archive Research and Oral Traditions Insight into life at the Cape of Good Hope from c 1780 to the present **Field Guide to Snakes of the Middle East** Damien Egan, 2022-07-21 Brilliant colour art and concise identification text make this the definitive field guide to snakes of this region and a crucial addition to any naturalist's backpack Arabia and the Middle East have an unusually rich herpetofauna and this is exemplified by the region's snakes There are almost 190 species and this new field guide offers a way to identify them Written by expert Damien Egan and illustrated with his brilliant digital imagery the book consists of 87 plates each containing two or three species with the snakes illustrated along with comparison species and diagnostic features in detail such as head and keel scales A concise species text accompanies each plate highlighting ID ecology habitat and prey along with notes on venom Introductory text covers the snakes of the region more widely with a discussion on how and where to find them and how to study them safely Ambitious in scope this book will be of great interest to all herpetophiles living in or visiting this broad and diverse region **The Mixer**, 1929 **Serpent Galaxy** David McElwrath, 2016-09-19 This book's storyline is that of reptilians from the Andromeda Galaxy The first earth ship to meet the reptilians was not a human ship but an advanced ship of the ancient and advanced race of the Vlar The Vlar were a very high technology ancient race who expected to have no fear of the Snakes However the race of reptilians that were rapidly conquering all civilizations with which they came into contact were now a threat to all races whatever their level of technology A century ago the Vlar never expected to be worried about the Snakes as all civilizations called them Their conquests had become so rapid and so had their takeover of advanced civilizations and their technology that they were now a threat to every being in the galaxy The Vlar gave the earth humans some of their high tech ships as a kind of last effort since they held the earth humans in such low regard The Vlar thought of the earth humans as warlike backward and vicious animals who killed their own kind However there were very few options left open to the Vlar so they gave the earth humans a few of their ships The Snakes had millions

of high tech ships that carried thousands of Snake soldiers at several times the speed of light The Vlar gave the earth humans a few dozen Vlar ships The Snakes were over seven feet tall and weighed over five hundred pounds They were equipped with fangs and claws like the Tyrannosaurus rex of old earth history They liked to fight with hands or blade weapons to see the blood flow They were cannibals in addition to being carnivores They considered it honorable to eat your defeated foe and they were not above eating their own children The Snakes used massed ships in the millions to just roll over all the people they intended to conquer It was expected of any failed Snake expeditions to commit suicide The Snakes occupied over 1 400 planets and were continuing to conquer more as time went by Apparently none could stand before the Snakes Could the small blue planet called earth have a chance to survive A Few Leaves from a Great Book James Wager Johnson,1926
