Inventing the Silent Majority in Western Europe and the United States Anna von der Goltz, Britta Waldschmidt-Nelson, 2019-03-28 For historians of social movements this text explores 1960s and 1970s conservative political activism in the US and Western Europe **American Missionaries in Iran during the 1960s and 1970s** Philip O. Hopkins, 2020-09-22 This work explores the interaction of American Protestant missionaries with Iranians during the 1960s and 1970s It focuses on the missionary activities of four American Protestant groups Presbyterians Assemblies of God International Missions and Southern Baptists It argues that American missionaries predisposition toward their own culture confused their message of the gospel and added to the negative perception of Christianity among Iranians This bias was seen primarily in the American missionaries desire to modernize Iran through education and healthcare and between the missionaries relationship with Iranian Christians Iranian attitudes towards missionary involvement in these areas are investigated as is the changing American missionary strategy from a traditional method where missionaries had the final say on most matters related to American and Iranian Christian interaction to the beginnings of an indigenous system where a partnership developed between the missionary and the Iranian Christian *Managing the British Economy in the 1960s: A Treasury Perspective* Sir Alec Cairncross, 2016-07-27 In *Managing the British Economy in the 1960s* Sir Alec Cairncross who was Economic Adviser to HMG in 1961 64 and Head of the newly created Government Economic Service in 1964 69 tells the inside story of the making of economic policy under four Chancellors of the Exchequer between 1960 and 1970 first under a Conservative government then under a Labour government He describes how the Treasury dealt with a whole succession of crises and experimented with many new departures of policy over the decade for example the efforts to engage in long term planning form a workable incomes policy make use of new taxes for new purposes and enter the European Community In parallel with the 1990s the story is dominated by the effort to avoid devaluation followed by the struggle to make it work and keep the pound from sliding further **Making Peace with the 60s** David Burner, 2021-07-13 David Burner s panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self

deconstructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history **Social Controversy and Public Address in the 1960s and Early 1970s** Richard J.

Jensen,2017-10-01 The period between the 1960s and 1970s is easily one of the most controversial in American history Examining the liberal movements of the era as well as those that opposed them this volume offers analyses of the rhetoric of leaders including those of the civil rights movement the Chicano movement the gay rights movement second wave feminism and conservative resistance groups It also features an introduction that summarizes much of the significant research done by communication scholars on dissent in the 1960s and 1970s This time period is still a fertile area of study and this book provides insights into the era that are both provocative and illuminating making it an essential read for anyone looking to learn more about this time in America Self and Identity Through the Life Course in Cross-Cultural Perspective Timothy J Owens,2000 This volume represents a new name and a new focus for its predecessor Current Perspectives on Aging and the Life Cycle volumes 1 4 We begin our new series now titled Advances in Life Course Research with volume 5 Its statement of purpose is the publication of theoretical analyses reviews policy analyses and positions and theory based empirical papers on issues involving all aspects of the human life course It adopts a broad conception of the life course and invites and welcomes contributions from all disciplines and fields of study interested in understanding describing and predicting the antecedents of and consequences for the course that human lives take from birth to death within and across time and cultures construed in its broadest sense regardless of methodology theoretical orientation or disciplinary affiliation Literature and the Arts since the 1960s Jorge Almeida e Pinho,Márcia Lemos,2020-08-13 This collection of essays focuses on addressing the imaginative wake of the rebellious late 1960s with a particular but not exclusive focus on word and image relations The volume showcases and discusses the impact of such processes on literature and the arts of that mythologized historical period It explores the impact of its defining causes hopes and regrets on the creative imagination The awakening moment for

that extraordinary momentous period in the global socio political memory was May 1968 which came to be seen as the culmination and epitome of a series of processes involving protest and the affirmation of previously silent or subaltern causes. Such processes and causes were predicated on challenges to established powers and mindsets and hence on demands for change which have had rich consequences in literature and the arts.
