Zelizer, 2021-09-14 A dollar is a dollar or so most of us believe Indeed it is part of the ideology of our time that money is a single impersonal instrument that impoverishes social life by reducing relations to cold hard cash After all it s just money Or is it Distinguished social scientist and prize winning author Viviana Zelizer argues against this conventional wisdom She shows how people have invented their own forms of currency earmarking money in ways that baffle market theorists incorporating funds into webs of friendship and family relations and otherwise varying the process by which spending and saving takes place Zelizer concentrates on domestic transactions bestowals of gifts and charitable donations in order to show how individuals families governments and businesses have all prescribed social meaning to money in ways previously unimagined      **The American Dole** Jeff Singleton, 2000-09-30 As Jeff Singleton shows the rapid expansion of unemployment relief in the early 1930s generated pressures which led to the first federal welfare programs However the process has received relatively little attention from historians and unemployment relief does not play a major role in discussions of the current state of welfare Singleton seeks not only to fill this gap but to challenge popular interpretations of relief policy in the early 1930s He shows that relief was expanding prior to the depression and that the modern aspects of social policy implemented in the 1920s profoundly influenced the response of the welfare system to the early stages of the economic crisis Relief under President Herbert Hoover was neither primarily voluntarist nor traditional The first full fledged federal welfare program was implemented under the Hoover administration by the Reconstruction Finance Corporation The initial goals of the New Deal s Federal Emergency Relief Administration were to reduce the national relief caseload and the federal welfare role while improving standards for those on the dole The institutionalization of state level welfare was a consequence of the failure of the 1935 reform program the WPA and the Social Security Act to eliminate the dole not a product of conscious liberal policy Singleton

concludes by evaluating the 1996 Personal Responsibility Act in the context of these conclusions If the dole was not a product of liberal reform but instead arose to fill a policy vacuum then it will be difficult to eliminate by legislative fiat unless states and the federal government are willing to finance relatively costly alternatives A provocative analysis of interest to historians and social scientists concerned with American social and labor policy    The Family ,1929    Proceedings of the National Conference of Social Work National Conference on Social Welfare,1886    **Virginia Welfare Bulletin** ,1928    Social Security Bulletin ,1939    **Proceedings of the National Conference of Social Work at the ...
