Committee on Foreign Affairs, 1970 *Catalog of Publications*, 1968 **Iran and The West** Cyrus Ghani, 2013-09-05 First Published in 1987 this volume offers a bibliography of biographies autobiographies and books on contemporary politics by prominent 20th century figures on the topic of Iran **Widowhood in an American City** Helena Lopata, 2017-09-29 Widowhood in an American City focuses on the roles and lifestyles of urban American widows fifty years of age or older These women form a segment of two generations of one society they present a historical instance of people born and brought up under conditions that are not likely to be duplicated Not only the U S but many other countries are undergoing modifications in the degrees and forms of urbanization industrialization and social complexity Helena Znaniecki Lopata argues that the way women re engage society following the death of a husband is different due to their location in the modern social system She notes that the trends in social structure are toward increasingly voluntaristic engagement in achieved functionally oriented social roles that are performed in large groups and contain secondary social relations The cultural background of many societal members prevents the utilization of most resources of the complex urban world restricting them to a small social life space with almost automatically prescribed social relations Those who argue that the elderly are socially isolated contend that this is a result of the natural process of withdrawal of the person and the society from each other These arguments focus on those who are isolated or lonely and those who lack the skills money health and transportation for engaging or re engaging society Lopata s study indicates that this assumption is false for many widows If such people are to be helped a fresh view of the relation between the urban industrial and complex modern world and its residents is required and new action programs must be creatively developed This is a timely ground breaking work that addresses and shatters common myths associated with growing old alone in an urban society **The Official History of the UK Strategic Nuclear Deterrent** Matthew Jones, 2017-05-12 Volume I of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in depth examination of the British government s strategic nuclear policy from 1945 to 1964 Written with full access to the UK documentary record this volume examines how British governments after 1945 tried to build and then maintain an independent nationally controlled strategic nuclear capability and the debates this provoked in official circles Against a background of evolving British ideas about deterrence during the Cold War it focuses on the strategic political and diplomatic considerations that compelled governments in the face of ever increasing pressures on the defence budget to

persist in their efforts to develop nuclear weapons and to deploy a credible nuclear force as the age of the manned bomber gave way to the ballistic missile. Particular attention is given to controversies over the portion of the defence budget devoted to the deterrent programme, the effects of the restoration of Anglo-American nuclear collaboration after 1958, increasing reliance on the United States for nuclear delivery systems, the negotiations that led to the Nassau Agreement of 1962 and the supply of Polaris, and discussions within the Western Alliance over the control of nuclear forces. By the time of the October 1964 election, when this volume concludes, previous dismissal of the prospects for successful ballistic missile defence were giving way to growing doubts over the long-term effectiveness of the Polaris system in its role as an independent deterrent, several years before it was due to enter service with the Royal Navy. This book will be of much interest to students of British politics, Cold War history, nuclear proliferation and international relations.
