Foucault on Leadership Nathan W. Harter,2016-02-05 Michel Foucault one of the most cited scholars in the social sciences devoted his last three lectures to a study of leader development Going back to pagan sources Foucault found a persistent theme in Hellenistic antiquity that in order to qualify for leadership a person must undergo processes of subjectivation which is simply the way that a person becomes a Subject From this perspective an aspiring leader first becomes a Subject who happens to lead These processes depend on a condition of *parresia* which is truth telling at great risk that is for the edification of the other person A leader requires a mentor and advisors in order to lead successfully while also developing the capacity in one s own mind to heed the truth In other words a leader must learn how to guide oneself A valuable contribution to the field of leadership studies this book summarizes these last lectures as they pertain to the study and practice of leadership emphasizing the role of ethics and truth telling as a check on power It then presents several other contexts where these same lessons can be seen in practice including in the life of

Alexander Solzhenitsyn whose career as a writer epitomized speaking truth to power and somewhat surprisingly in the United States military in response to its twenty first century mission of counterinsurgency *Russian Messianism* Peter J.
