Some Remembered Words:

Remembered Words Alastair Fowler, 2021-07-22 Remembered Words is a selection of Alastair Fowler's essays on genre realism and the emblem three interrelated subjects published over six decades It offers readers a way to arrive at a sense of how approaches to these subjects have changed over that period Specifically it shows how genre has come to be understood in terms of family resemblance theory Remembered Words argues that realism can be seen as altering historically so that Renaissance realism for example differs from those of later periods Similar changes are traced in the emblem which Fowler shows to be not only a particular genre but an element of various kinds of realism Famous passages in ancient literature are remembered in the familiar emblems of the Renaissance and Renaissance emblems form the basis of metaphors in later literature Meanwhile the general approach of the critic and the reader has been altering over the years as becomes evident when one takes into account the time scale of sixty years an unusually long working life for a critic Modern theoretical approaches which are often casually regarded as self evident may appear less inevitable and more arbitrary. This is not to say that they are necessarily wrong just that they need to be argued for Remembered Words is intended for senior undergraduates and for graduate students who may use it to form ideas of Fowler's approach and that of his contemporaries and predecessors over the last half century
