**The Journal of the Alchemical Society**, 1913      Alchemical Poetry, 1575-1700 Robert M. Schuler, 2013-02-11 Of interest to interdisciplinary historians as well as those in various other fields this book presents the first publication of 14 poems ranging from 12 to 3 000 lines The poems are printed in the chronological order of their composition from Elizabethan to Augustan times but nine of them are verse translations of works from earlier periods in the development of alchemy Each has a textual and historical introduction and explanatory note by the Editor Renaissance alchemy is acknowledged as an important element in the histories of early modern science and medicine This book emphasises these poems expression of and shaping influence on religious social and political values and institutions of their time too and is a useful reference work with much to offer for cultural studies and literary studies as well as science and history      The Virgin Mary as Alchemical

and Lullian Reference in Donne Roberta Albrecht, 2005 This study will also appeal to New Historicists and those interested in alchemy emblems or theology Jacket      *Economies of Literature and Knowledge in Early Modern Europe* Subha Mukherji, Dunstan Roberts, Rebecca Tomlin, George Oppitz-Trotman, 2020-09-22 Placing literature at the centre of Renaissance economic knowledge this book offers a distinct intervention in the history of early modern epistemology It is premised on the belief that early modern practices of change and exchange produced a range of epistemic shifts and crises which nonetheless lacked a systematic vocabulary These essays collectively tap into the imaginative kernel at the core of economic experience to grasp and give expression to some of its more elusive experiential dimensions The essays gathered here probe the early modern interface between imaginative and mercantile knowledge between technologies of change in the field of commerce and transactions in the sphere of cultural production and between forms of transaction and representation In the process they go beyond the specific interrelation of economic life and literary work to bring back into view the thresholds between economics on the one hand and religious legal and natural philosophical epistemologies on the other

*Alchemical Belief* Bruce Janacek, 2012-06-19 What did it mean to believe in alchemy in early modern England In this book Bruce Janacek considers alchemical beliefs in the context of the writings of Thomas Tymme Robert Fludd Francis Bacon Sir Kenelm Digby and Elias Ashmole Rather than examine alchemy from a scientific or medical perspective Janacek presents it as integrated into the broader political philosophical and religious upheavals of the first half of the seventeenth century arguing that the interest of these elite figures in alchemy was part of an understanding that supported their national and in some cases royalist loyalty and theological orthodoxy Janacek investigates how and why individuals who supported or were actually placed at the traditional center of power in England's church and state believed in the relevance of alchemy at a time when their society their government their careers and in some cases their very lives were at stake      Fictions of Conversion Jeffrey S. Shoulson, 2013-03-21 *Fictions of Conversion* investigates the anxieties produced by the rapid and erratic religious political and cultural transformations in early modern England which were often given shape in poetry plays
