Miller, 1997 In the middle of the eighteenth century English literature composition and rhetoric were introduced almost simultaneously into colleges throughout the British cultural provinces Professorships of rhetoric and belles lettres were established just as print was reaching a growing reading public and efforts were being made to standardize educated taste and usage The provinces saw English studies as a means to upward social mobility through cultural assimilation In the educational centers of England however the introduction of English represented a literacy crisis brought on by provincial institutions that had failed to maintain classical texts and learned languages Today as rhetoric and composition have become reestablished in the humanities in American colleges English studies are being broadly transformed by cultural studies community literacies and political controversies Once again English departments that are primarily departments of literature see these basic writing courses as a sign of a literacy crisis that is undermining the classics of literature The Formation of College English reexamines the civic concerns of rhetoric and the politics that have shaped and continue to shape college English      The Eighteenth-century British Novel and Its Background Henry George Hahn, Carl Behm, 1985 To find more information about Rowman and Littlefield titles please visit [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com)      Thomas Paine Bruce Kuklick, 2018-05-08 Thomas Paine is a unique political thinker who has continued to attract scholarly and popular attention from the time he wrote about both the American and French Revolutions at the end of the eighteenth century This collection brings together the most recent essays debating the meaning and relevance of Paine's works It includes an historiographical survey of scholarship about Paine and articles by the leading authorities in the field The essays survey his life analyze his ideas place them in their social and intellectual context and appraise their significance today      The French Revolution and Enlightenment in England, 1789-1832 Seamus Deane, 1988      **Routledge Library Editions: The French Revolution** Various Authors, 2022-07-30 The volumes in this set originally published between 1953 and 1992 discuss the causes and conditions which allowed the French Revolution to happen and its impact on wider European politics and society As well as charting key events in the revolution the conclusion discusses the significance of the French Revolution in the context of other revolutions in both the nineteenth and twentieth centuries One of the volumes discusses whether the French Revolution is part of Germany's progressive tradition whilst others trace the growth of English radicalism and the growth of the French Press showing the importance of the emergence of provincial newspapers and examining the relationship of journalism with political power      **The Creation of the Modern World** Roy Porter, 2000 From a critically acclaimed author comes an
