The Sinking of the Bismarck William Shirer, 2017-09-07 An acclaimed historian provides a thrilling account of the British Navy's unlikely defeat of the world's most feared battleship

'Sink the French!' David Wragg, 2007-07-01 A history defining moment in World War II when the allied nations of England and France stood on the precipice of betrayal and war with each other. After the forces of Nazi Germany launched their Blitzkrieg assault on Holland, Belgium, and Northern France, the tentative relationship between Great Britain and France was strained to the limit. For when the Vichy regime surrendered, the British had grave fears that the Germans would force the French naval fleet, the fourth largest in the world, to turn against their former ally. While in fact their orders were to scuttle, should the Germans attempt to seize them, *Sink the French* examines the precursors to the fall of France and its consequences, most particularly the way the French Navy was dealt with. It examines the confused situation that France's defeat created, including the rise of a relatively junior French general, Charles de Gaulle, who was smuggled out of France by the RAF. Elsewhere, French ships were boarded and seized by the British, and at Oran, Algeria, their fleet was bombarded by the Royal Navy. Just as there were other incidents, including French aircraft bombing Gibraltar. This insightful exploration of a world sinking into chaos and the mistrust war can breed between allies is a must read for anyone interested in this pivotal moment in history when opposition to the Nazis was almost broken.

**Killing the Bismarck** Iain Ballantyne, 2014-05-19 An excellent account. A suspenseful narrative that will keep readers on the edge of their seats. WWII History Magazine. In May 1941, the German battleship Bismarck, accompanied by heavy cruiser Prinz Eugen, broke out into the Atlantic to attack Allied shipping. The Royal Navy's pursuit and subsequent destruction of Bismarck was an epic of naval warfare. In this new account of those dramatic events at the height of the Second World War, Iain Ballantyne draws extensively on the graphic eyewitness testimony of veterans to construct a thrilling story, mainly from the point of view of the British battleships, cruisers, and destroyers involved. He describes the tense atmosphere as cruisers play a lethal cat and mouse game shadowing Bismarck in the icy Denmark Strait. We witness the shocking destruction of the British battle cruiser Hood, in which all but three of her ship's complement were killed, an event that filled pursuing Royal Navy warships, including the battered battleship Prince of Wales, with a thirst for revenge. While Swordfish torpedo bombers try desperately to cripple the Bismarck, we sail in destroyers on their own daring torpedo attacks, battling mountainous seas. Finally, the author takes us into the final showdown as battleships Rodney and King George V, supported by cruisers Norfolk and Dorsetshire, destroy the pride of Hitler's fleet. This vivid, superbly researched account portrays this epic saga through the eyes of so-called ordinary sailors caught up in extraordinary events, conveying the horror and majesty of war at sea in all its cold brutality and awesome power.
