distant events that cannot be inferred from present information presentiment physiological responses to stimuli that have not yet occurred the effects of human emotions on globally dispersed machines the possible impact of local sidereal time on psi performance and the familiar feeling of knowing who is calling on the phone Special attention is given to those phenomena that make it difficult for scientists to get a clear understanding of psi The body of psi research while complex and frustrating is shown to contain sufficiently compelling positive evidence to convince the rational open minded observer that psi is real and that one or more physical processes probably underlie observed psi phenomena *The Gold Leaf Lady and Other Parapsychological Investigations* Stephen E. Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization *The Gold Leaf Lady and Other Parapsychological Investigations* is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions *The Gold Leaf Lady and Other Parapsychological Investigations* will intrigue both adherents and detractors of its controversial subject matter alike

**Philosophy, History and Social Action** S. Hook, W. O'Neill, R. O'Toole, 2012-12-06 Two articles by Lewis Feuer caught my attention in the 40s when I was wondering as a student physicist about the relations of physics to philosophy and to the world in turmoil One was his essay on *The Development of Logical Empiricism* 1941 and the other his critical review of Philipp Frank s biography of Einstein *Philosophy and the Theory of Relativity* 1947 How extraordinary it was to find so intelligent independent critical and humane a mind and furthermore he went further as I soon realized when I looked for his name on other publications I recall arguing with myself over his exploration of Indeterminacy and *Economic Development* 1948 and even more when I read his *Dialectical Materialism and Soviet Science* 1949 More papers and then the fascinating sometimes irritating always insightful books His monograph on *Psychoanalysis and Ethics* 1955 the beautiful sociological and humanist study of Spinoza and the Rise of Liberalism 1958 his essays on *The Social Roots of Einstein s Theory of Relativity* 1971 together with the book on Einstein and the Generations of Science 1974 the splendid reader from

the works of Marx and Engels Basic Writings on Politics and Philosophy 1959 which was a major text of the 60s the stimulating essays on the social formation which seems to have been required for a modern scientific movement to develop set forth most convincingly in *The Scientific Intellectual* 1963
