 activity that put people in awkward situations sometimes especially when they are not used to it They can lead to serious
 injuries if the proper precautions are not taken Due to this amateur skiers needs to go by the following skiing tips very
 carefully to get them excited and also protect them from possible injuries during performance It is recommended for skiers to
 stay evenly balanced over the skis Skiers have to understand the fact that their boots push them forward but the weight of
 the skis scoots them back Many amateur skiers tend to lean way back or forward to counter balance themselves This idea is
 very wrong It is therefore advisable to keep the legs squarely under the torso with shoulders pointing downhill as this will
 provide a stronger technique with more control Take note that skiing in balance is effortless **Ski** ,2005-11 **Ski**
