Land of Hope Young Reader's Edition Wilfred M. McClay, 2022-08-02 A Young Readers Edition to *Land to Hope* the wonderfully written sweeping narrative history of the United States that will help Americans discover the land they call home This Young Reader's Edition brings the great American story into the lives of late primary and middle school children We use it in Hillsdale College's affiliated K 12 schools and enthusiastically recommend it to any teacher or parent Dr Kathleen O Toole Assistant Provost for K 12 Education Hillsdale College

VOLUME ONE SHAPING A NEW NATION From 1492 to 1877 From its beginnings America was a land of hope a magnet for those seeking a new beginning for themselves The American Founders created a unique plan of government designed to realize those ideals Implementing the plan was not easy though and a bloody civil war would push

the American experiment to the breaking point and to a new birth of freedom *The Reader's Digest of Books* Helen Rex Keller, 1917 **Youth and Memory in Europe** Félix Krawatzek, Nina Friess, 2022-06-06 This volume contends that young individuals across Europe relate to their country's history in complex and often ambivalent ways. It pays attention to how both formal education and broader culture communicate ideas about the past and how young people respond to these ideas. The studies collected in this volume show that such ideas about the past are central to the formation of the group identities of nations, social movements, or religious groups. Young people express received historical narratives in new, potentially subversive ways. As young people tend to be more mobile and ready to interrogate their own roots than later generations, they selectively privilege certain aspects of their identities and their identification with their family or nation while neglecting others. This collection aims to correct the popular misperception that young people are indifferent towards history and prove instead that historical narratives are constitutive to their individual identities and their sense of belonging to something broader than themselves.
