Wittman,2023-12-08 This innovative volume extends existing conversations on translation and modernism with an eye toward bringing renewed attention to its ethically complex appropriative nature and the subsequent ways in which modernist translators become co creators of the materials they translate Wittman builds on existing work at the intersection of the two fields to offer a more dynamic nuanced and wider lens on translation and modernism The book draws on scholarship from descriptive translation studies polysystems theory and literary translation to explore modernist translators appropriation of source texts and their continuous recalibrations of equivalence between source text and translation Chapters focus on translation projects from a range of writers including Beckett Garnett Lawrence Mansfield and Rhys with a particular spotlight on how women s translations and women translators innovations were judged more critically than those of their male counterparts Taken together the volume puts forth a fresh perspective on translation and modernism and of the role of the modernist translator as co creator in the translation process This book will be of particular interest to scholars in translation studies modernism reception theory and gender studies **Wanderers Across Language** Kinga Olszewska,2017-12-02 Exile has become a potent symbol of Polish and Irish cultures Historical political and cultural predicaments of both countries have branded them as diasporic nations but

in Adorno's dictum for an exile writing becomes home Olszewska offers a multifaceted picture of the figure of exile in postwar Poland and Ireland juxtaposing politics and culture whereas Irish exile appears more in an economic and cultural context the essence of Polish exile is political This comparative study of works by Polish and Irish authors Stanislaw Baranczak Adam Zagajewski Marek Hlasko Kazimierz Brandys Brian Moore Desmond Hogan and Paul Muldoon shows a literature which not only depicts the experience of exile but which uses exile as a literary device Katherine Mansfield and Russia Galya Diment, 2018-11-30 Reveals diverse notions of distributed cognition in the early Greek and Roman worlds A Concise Companion to the Victorian Novel Francis O'Gorman, 2008-04-15 This volume presents fresh approaches to classic Victorian fiction from 1830-1900 Opens up for the reader the cultural world in which the Victorian novel was written and read Crosses traditional disciplinary boundaries Provides fresh perspectives on how Victorian fiction relates to different contexts such as class sexuality empire psychology law and biology *Seamus Heaney and East European Poetry in Translation* Carmen Bugar, 2017-12-02 Poetry born of historical upheaval bears witness both to actual historical events and considerations of poetics Under the duress of history the poet who is torn between lamentation and celebration seeks to achieve distance from his troubled times Add to this a deep love for and commitment to the Irish and English poetic traditions and a strong desire to search for models outside his culture and you have the poetry of the Irish Nobel laureate Seamus Heaney 1939 In this study Carmen Bugar looks at how the poetry of Seamus Heaney born of the Troubles in Northern Ireland has encountered the historically tested imaginations of Czeslaw Milosz Joseph Brodsky Osip Mandelstam and Zbigniew Herbert as he aimed to fulfil a Horatian poetics a poetry meant to both instruct and delight its readers Carmen Bugar is the author of a collection of poems *Crossing the Carpathians* and a memoir *Burying the Typewriter* **Through Other Eyes** Sophie Alatorre, Richard Trim, 2009-05-27 The present volume represents the results of ideas put forward by specialists of literature linguistics and translation studies at the Institution of Translation in Europe conference held at the University of Provence in June/July 2006 Its aim is to investigate how English language literary works have been translated with the focus primarily on French and how they have been disseminated in Europe throughout a period going as far back as the Renaissance Exactly how were translations carried out and with whose support Which official institutions were involved What were the translators' intentions How faithful were translations with regard to source texts What kind of linguistic and literary difficulties were involved in the translations These are just some of the questions that the present volume aims to answer It attempts to give an overview which covers a variety of aspects on the complex task of making suitable translations available to the European public The result however is that translations have often been portrayed in quite a different light to the original Creativity and Development R. Keith Sawyer, Vera John-Steiner, Seana Moran, Robert J. Sternberg, David Henry Feldman, Howard Gardner, Jeanne Nakamura, Mihaly Csikszentmihalyi, 2003-09-04 What is creativity and where does it come from *Creativity and Development* explores the fascinating connections and tensions between creativity research and

developmental psychology two fields that have largely progressed independently of each other until now In this book scholars influential in both fields explore the emergence of new ideas and the development of the people and situations that bring them to fruition The uniquely collaborative nature of Oxford's Counterpoints series allows them to engage in a dialogue addressing the key issues and potential benefits of exploring the connections between creativity and development Creativity and Development is based on the observation that both creativity and development are processes that occur in complex systems in which later stages or changes emerge from the prior state of the system In the 1970s and 1980s creativity researchers shifted their focus from personality traits to cognitive and social processes and the co authors of this volume are some of the most influential figures in this shift The central focus on system processes results in three related volume themes how the outcomes of creativity and development emerge from dynamical processes the interrelation between individual processes and social processes and the role of mediating artifacts and domains in developmental and creative processes The chapters touch on a wide range of important topics with the authors drawing on their decades of research into creativity and development Readers will learn about the creativity of children's play the creative aspects of children's thinking the creative processes of scientists the role of education and teaching in creative development and the role of multiple intelligences in both creativity and development The final chapter is an important dialogue between the authors who engage in a roundtable discussion and explore key questions facing contemporary researchers such as Does society suppress children's creativity Are creativity and development specific to an intelligence or a domain What role do social and cultural contexts play in creativity and development Creativity and Development presents a powerful argument that both creativity scholars and developmental psychologists will benefit by becoming more familiar with each other's work
