Local Volunteering, Adult Learning and Social Change in the Philippines Chris Millora, 2025-07-10 Based on long term ethnographic fieldwork this book explores the learning and literacy dimensions of local volunteering for social change in the Philippines It tells the story of youth and adult volunteers who experience vulnerabilities yet play central roles in local development efforts in housing and sexual health Why do people who themselves experience vulnerability volunteer to help others And what are their learning experiences in the process In its unique application of a literacy lens to the study of volunteering the book unravels how marginalised groups often seen as thankful receivers re use texts words and labels to re define their roles in shaping social change and for whose benefit Chris Millora provides an in depth look into the volunteers everyday activities such as delivering community health classes filling out donor forms and applying for

government approvals In doing so this book reveals how volunteers voices and agency were constrained to fit a certain bureaucratic way of working It offers powerful case studies on how global development agendas such as value for money upskilling and professionalisation through bureaucratic literacies impact the experiences of volunteers at the grassroots level Arguing that literacy and volunteering could enhance inequalities within groups this book calls for a renewed focus on the role that power and identities play both in adult youth literacy and volunteering research **The Church of Ireland in Co Limerick Edited Research Correspondence January 2012 to December 2013** J A Murphy, **Psychic Research** ,1929

Chitnis, Jakob Stougaard-Nielsen, Rhian Atkin, Zoran Milutinović, 2020 The most detailed and wide ranging comparative study to date of how European literatures written in less well known languages try through translation to reach the wider world rejecting the predominant narrative of tragic marginalization with case studies of endeavour and innovation from nineteenth century Swedish women's writing to twenty first century Polish fantasy **Girls on Fire** Sarah Hentges, 2018-04-04 Under the threat of climate change corruption inequality and injustice Americans may feel they are living in a dystopian novel come to life Like many American narratives dystopian stories often focus on males as the agents of social change With a focus on the intersections of race gender class sexuality and power the author analyzes the themes issues and characters in young adult YA dystopian fiction featuring female protagonists the Girls on Fire who inspire progressive transformation for the future How Traditions Live and Die Olivier Morin, 2016 Of all the things we do and say most will never be repeated or reproduced Once in a while however an idea or a practice generates a chain of transmission that covers more distance through space and time than any individual person ever could What makes such transmission chains possible For two centuries the dominant view from psychology to anthropology was that humans owe their cultural prosperity to their powers of imitation In this view modern cultures exist because the people who carry them are gifted at remembering storing and reproducing information *How Traditions Live and Die* proposes an alternative to this standard view

What makes traditions live is not a general purpose imitation capacity Cultural transmission is partial selective often unfaithful Some traditions live on in spite of this because they tap into widespread and basic cognitive preferences These attractive traditions spread not by being better retained or more accurately transferred but because they are transmitted over and over This theory is used to shed light on various puzzles of cultural change from the distribution of bird songs to the staying power of children s rhymes and to explain the special relation that links the human species to its cultures Morin combines recent work in cognitive anthropology with new advances in quantitative cultural history to map and predict the diffusion of traditions This book is both an introduction and an accessible alternative to contemporary theories of cultural evolution
