Haddock, 2017-09-15 How historically rooted power dynamics have shaped the evolution of civil society globally The civil society sector made up of millions of nonprofit organizations associations charitable institutions and the volunteers and resources they mobilize has long been the invisible subcontinent on the landscape of contemporary society For the past twenty years however scholars under the umbrella of the Johns Hopkins Comparative Nonprofit Sector Project have worked with statisticians to assemble the first comprehensive empirical picture of the size structure financing and role of this increasingly important part of modern life What accounts for the enormous cross national variations in the size and contours of the civil society sector around the world Drawing on the project's data Lester M Salamon S Wojciech Sokolowski Megan A Haddock and their colleagues raise serious questions about the ability of the field's currently dominant preference and sentiment theories to account for these variations in civil society development Instead using statistical and comparative historical materials the authors posit a novel social origins theory that roots the variations in civil society strength and composition in the relative power of different social groupings and institutions during the transition to modernity Drawing on the work of Barrington Moore Dietrich Rueschemeyer and others *Explaining Civil Society Development* provides insight into the nonprofit sector's ability to thrive and perform its distinctive roles Combining solid data and analytical clarity this pioneering volume offers a critically needed lens for viewing the evolution of civil society and the nonprofit sector throughout the world

Countering Discrimination in Social Work Bogdan Lesnik, 2017-07-05 Discrimination Isn't there enough talk about discrimination Yes indeed That is why we have to begin countering discrimination We need strategies that will make it inoperative or at least limit its scope But first we need to think how discrimination works and identify it where it works It concerns far more than mere procedural hitches for which a few legal provisions will do *Countering Discrimination* Volume 1998 of *International Perspectives in Social Work* yearbook brings papers that analyse mechanisms of social discrimination in a variety of such locations and bring proposals for counter strategies This is essential in social work if causes rather than manifestations of the problems it is concerned with are to be addressed But it is also essential that everybody who opposes discrimination recognise its subtle and dispersed ways of operation in the human services regardless of their own basic field of work In this respect the book will be useful to a very wide audience
