## **Socialist Register 199:**

The Socialist Register Ralph Miliband, 1998      *Privatisation against the European Social Model* Marica Frangakis, Christoph Hermann, Károly Lóránt, 2009-11-05 This book addresses the EU as powerful driver of the wave of privatizations in the network industries and public services since the early 1990s Based on theoretical arguments and empirical studies it examines the impact of these policies on what is regarded as the normative pillars of the European Social Model

**The African Charter on Human and Peoples' Rights [2 Volume Set]** Nat Rubner, 2023 A landmark study of the African Charter on human and peoples rights one of the most important documents in modern African history that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document This set describes its underlying African origins and how the principles of the OAU influenced its path and content

**Class, Power and the State in Capitalist Society** P. Wetherly, C. Barrow, P. Burnham, 2007-12-14 This collection of new essays re examines and evaluates central themes in the work of Ralph Miliband a leading contributor to Marxist political theory in twentieth century It provides an essential reference point for research within the Marxist tradition and a valuable resource for students on a range of courses in political and social theory

**The Struggle for Development** Benjamin Selwyn, 2018-03-02 The world economy is expanding rapidly despite chronic economic crises Yet the majority of the world's population live in poverty Why are wealth and poverty two sides of the coin of capitalist development What can be done to overcome this destructive dynamic In this hard hitting analysis Benjamin Selwyn shows how capitalism generates widespread poverty gender discrimination and environmental destruction He debunks the World Bank's dollar a day methodology for calculating poverty arguing that the proliferation of global supply chains is based on the labour of impoverished women workers and environmental ruin Development theories from neoliberal to statist and Marxist are revealed as justifying and promoting labouring class exploitation despite their pro poor rhetoric Selwyn also offers an alternative in the form of labour led development which shows how collective actions by labouring classes whether South African shack dwellers and miners East Asian and Indian Industrial workers or Latin American landless labourers and unemployed workers can and do generate new forms of human development This labour led struggle for development can empower even the poorest nations to overcome many of the obstacles that block their way to more prosperous and equitable lives

**Culture and Consensus (Routledge Revivals)** Robert Hewison, 2015-06-11 Culture and Consensus first published in 1995 and a revised edition in 1997 explores the history of the relationship between politics and the arts in Britain since 1940 and shows how the search for a secure sense of English identity has been reflected in official and unofficial attitudes to the arts architecture landscape and other emblems of national significance Illustrating his argument with a series of detailed case histories Robert Hewison analyses how Britain's cultural life has reached its present enfeebled condition and suggests a way forward This book will be of interest to students of art and cultural studies

**The Retreat of Social Democracy** John T. Callaghan, 2000 An

examination of policy and programme in the key social democratic parties of Britain France Germany and Sweden since the 1970s It situates change in the context of capitalist restructuring and shows how the radical Left initially responded to the unfolding crisis of the post war order      *Finance Capital Today* François Chesnais,2016-09-07 *Finance Capital Today* is shortlisted for the The Isaac and Tamara Deutscher Memorial Prize 2017 *Finance Capital Today* presents a rich new analysis of the specific features of contemporary capitalism notably its truly global nature and its financialisation calling on Marxist analyses of the concentration centralisation and globalisation of capital and Marx s theory of interest bearing and fictitious capital Chesnais shows how financial globalisation and the exponential growth of financial assets have developed alongside the globalisation of productive capital paying special attention to the contemporary operations of transnational corporations and global oligopoly He argues that the macroeconomic perspective is one in which large amounts of capital are looking for profitable investment in a setting of underlying overproduction and low profits The outcome will be low global growth repeated financial shocks and the growing interconnection between the environmental and economic crises      **Dictionary of Labour Biography** K. Gildart,D. Howell,2016-04-30 Volume XIII of the Dictionary of Labour Biography maintains the standard of original and thorough scholarship for which the series has earned its outstanding reputation A unique study of nineteenth and twentieth century British history each entry is written by a specialist and engages with recent developments in the field of labour history      **Handbook on Social Structure of Accumulation Theory** McDonough, Terrence,McMahon, Cian,Kotz, David M.,2021-12-07 This pioneering Handbook offers a state of the art exploration of the social structure of accumulation theory a leading theory of stages of capitalism expertly summarising its development to date It breaks new ground in several areas including econometric evidence for the theory and developing institutional analyses of technology and the environment      *The Socialist Register 1993* Ralph Miliband,1993 With the recent collapse of so much that formed socialist expectations in the twentieth century and yet at the same time with a global capitalist order which is full of severe massive and urgent problems we live in a period of great political confusion In such a period it is inevitable that nostrums are advanced both on the Right and on the Left which are incapable of tackling seriously the problems they are supposed to resolve We conceived this volume as addressing a broad range of dead end or morbid symptom responses to various aspects of the current global disorder offering analyses of why they arise as well as a critique and corrective to them We deliberately cast our net widely the essays in this volume highlight important aspects of our theme in relation to environmentalism feminism social democracy and revolutionary socialism and they also address real problems and false solutions as they pertain to postmodernism nationalism constitutionalism and immigration      **The British Labour Party and twentieth-century Ireland** Laurence Marley,2015-12-01 With contributions from a range of distinguished Irish and British scholars this collection of essays provides the first full treatment of the historical relationship between the Labour Party and Ireland in the last century from Keir Hardie to Tony Blair      *The Annual Register* Edmund Burke,1896

Continuation of the reference work that originated with Robert Dodsley written and published each year which records and analyzes the year's major events, developments and trends in Great Britain and throughout the world. From the 1920s volumes of *The Annual Register* took the essential shape in which they have continued ever since, opening with the history of Britain, then a section on foreign history covering each country or region in turn. Following these are the chronicle of events, brief retrospectives on the year's cultural and economic developments, a short selection of documents and obituaries of eminent persons who died in the year.

**America** V. G. Kiernan, 2005-06-17 The invasion and occupation of Iraq have sparked considerable discussion about the nature of American imperialism, but most of it is focused on the short term. The classical historical approach of this book provides a convincing and compelling analysis of the different phases of American imperialism which have now led to America becoming a global hegemon without any serious rivals. Victor Kiernan, one of the world's most respected historians, has used his nuanced knowledge of history, literature and politics to trace the evolution of the American Empire; he includes accounts of relations between Indians and white settlers, readings of the work of Melville and Whitman, and an analysis of the way that money and politics became so closely intertwined. Eric Hobsbawm's preface provides an insight into his own thoughts on American imperialism and a valuable introduction to Victor Kiernan's work. Together they shed useful light on today's urgent debates about the uses and misuses of seemingly unlimited military power, a lack of respect for international agreements and the right to pre-emptive defense.

*Cuba and Western Intellectuals since 1959* K. Artaraz, 2009-01-05 This timely book presents a history of the relationship between the Cuban Revolution and intellectuals and activists in France, Britain and the United States, exploring the complete cycle in this relationship and using it to examine the future of Cuba's symbolic status among intellectuals and activists in the West.

Perry Anderson Gregory Elliott, 1998 This first full reconstruction of Perry Anderson's distinguished career provides an overview of the evolution of the British New Left since 1956 and reveals a great deal about the vicissitudes of Marxist theory and political practice in the era of post-Stalinist communism. Gregory Elliott ultimately argues that notwithstanding significant discontinuities in his intellectual development, Anderson remains a critically engaged thinker of the intransigent Left, a contemporary historian whose commitment to the long view renders him an indispensable commentator on our times. Elliott also sketches the collective career of *New Left Review*, one of the most influential international journals of the postwar period.

*Forging Democracy* Geoff Eley, 2002-04-11 Democracy in Europe has been a recent phenomenon. Only in the wake of World War II were democratic frameworks secured, and even then it was decades before democracy truly blanketed the continent. Neither given nor granted, democracy requires conflict, often violent confrontations and challenges to the established political order. In Europe, Geoff Eley convincingly shows, democracy did not evolve organically out of a natural consensus; the achievement of prosperity or the negative cement of the Cold War. Rather, it was painstakingly crafted, continually expanded and doggedly defended by

varying constellations of socialist feminist Communist and other radical movements that originally blossomed in the later nineteenth century Parties of the Left championed democracy in the revolutionary crisis after World War I salvaged it against the threat of fascism and renewed its growth after 1945 They organized civil societies rooted in egalitarian ideals which came to form the very fiber of Europe s current democratic traditions The trajectories of European democracy and the history of the European Left are thus inextricably bound together Geoff Eley has given us the first truly comprehensive history of the European Left its successes and failures its high watermarks and its low tides its accomplishments insufficiencies and excesses and most importantly its formative lasting influence on the European political landscape At a time when the Left s influence and legitimacy are frequently called into question Forging Democracy passionately upholds its vital contribution

Socialism Since 1889 James D. Young, 1988-01-01 This book is an analytical study of the history of modern socialism from 1889 when the Second International was founded up to the present The biographical portraits of the individuals chosen in this study provide insight into important issues in socialist history These contrasting studies of twenty prominent socialists major thinkers and important activists or agitators illuminate particular problems in the historical evolution of socialism The book s final chapter offers a substantial analysis of developments in the post war period and an exploration of the crises facing contemporary world socialism in all its guises

**The Cambridge Companion to The Communist Manifesto** Terrell Carver, James Farr, 2015-09-09 Offers the latest contextual and biographical scholarship with innovative interpretations and is supplemented by the first and latest English translations

**Nation-States** Neil Davidson, 2016-05-30 In his latest collection of essays Neil Davidson brings his formidable analytical powers to bear on the concept of the capitalist nation state Through probing inquiry Davidson draws out how nationalist ideology and consciousness is used to bind the subordinate classes to the nation while simultaneously using the state as a means of conducting geopolitical competition for capital
