Sells, Mary M. Golden, 1972-01-01 **Socialization and personality development** Edward Zigler, Irvin Long Child, 1973 [Life-Span Developmental Psychology](#) Paul B. in socialization Factors that contribute to children s sex role acquisition include 1 the role of the family in gender identity formation 2 peer pressure to conform to rules regarding sex appropriate behavior and attitudes 3 the impact of television and 4 the significant role that schools play in emphasizing reinforcing and expanding differences that children have when they enter school It is concluded that sex role socialization provides a viable way of understanding the process of personality development because it involves the same principles invoked in other areas of socialization *Social and Personality Development*
