Society, Evolution and Revelation : an Original Insight Into Man's Place in Creation Hanaghan, Jonathan,1957

Explorations in Classical Sociological Theory Kenneth Allan,2010 Explorations in Classical Sociological Theory

Seeing the Social World Second Edition is an undergraduate sociological theory textbook that introduces the student to the major classical theorists including Marx Spencer Durkheim Weber Simmel Mead Schutz Gilman and Du Bois The theorists were chosen for the diversity of their perspectives as well as their ability to introduce the student to contemporary theory Kenneth Allan uses a lively informative writing style to engage the students in the eras of social change that spawned the major sociological theories and then applies them to the current era which also is experiencing major social change Features and benefits The book includes a glossary of terms Each of the theorist s important concepts are highlighted in the text and clear definitions provided in the glossary This feature is particularly important because theory is made up of terms and concepts and without the use of a glossary it is very easy for the undergraduate theory student to lose track of the terms and meanings While the book is organized primarily around the individual theorist s perspective a categorical scheme is also provided so the student can roughly situate the theorists and decide for themselves some of sociology s big questions The scheme provided in the book is not the one usually used by textbooks The more commonly used scheme conflict functional interaction hides some really important questions that the student needs to consider for example is society an object or does it exist only through interpretations The book provides an appendix with complete definitions of most of sociology s major perspectives e g critical theory including feminism race and queer theory postmodernism and so on exchange theory rational choice theory dramaturgy ethnomethodology structuration network theory ecological theory social phenomenology and so on The book introduces the power and poetry of theory by extensive use of original source material from the theorists writings

Explorations in Classical Sociological Theory: Seeing the Social World Kenneth Allan,2012-04-30 Kenneth Allan emphasizes theory as a constructive thinking enterprise by including chapters devoted to teaching students how to think theoretically Journal of the Transactions of the Victoria Institute, Or Philosophical Society of Great Britain Victoria Institute (Great Britain),1927 Each volume includes list of members and objects of the institute except v 31 which has no list of members Beginning with v 12 a list of the papers contained in preceding volumes is issued regularly with each volume

The Social Lens Kenneth Allan,2010-05-13 The Social Lens An Invitation to Social and Sociological Theory Second Edition is an upper division undergraduate social theory textbook that introduces the student to the major classical and contemporary theorists The theorists were chosen for the diversity of their perspectives as well as their ability to introduce the student to contemporary theory Dr Allan uses a lively informative writing style to engage the students in the eras of social change that spawned the major sociological theories and then applies them to the current era which also is experiencing major social change **Journal of the Transactions of the Victoria Institute, Or Philosophical Society**

of Great Britain ,1927 **Lacan in the End Times** Rob Weatherill,2022-09-21 This book explores themes around the Father His absence in modern society and the decline of mental health The nature of this decline can be uniquely psychoanalytically theorised in both the corresponding ferocity of the internal object and exposure to the Real The first part of this book underlines what psychoanalysis and psi sciences continue to overlook who now provides what Lacan called the narrow footbridge between anxiety and death What terrorism must replace the father How can reality be stabilised once more The second part follows the atomised world as it turns towards extremism and utopian dreams in Ireland via Hanaghan's radical psychoanalysis in Levinasian ethics in Gnostic belief in an evil world and in the clinic of the death drive The conclusion turns finally to the God beyond God and the overwhelming evidence for God's presence in the world Lacan in the End Times will be of interest to psychoanalysts psychotherapists counsellors social workers and scholars in critical theory philosophy cultural theory literary theory and theology Perspectives on the Age of the Earth and Why They Matter

Francis Ö. Dudás,2020-02-13 Polls show almost half of US adults believe that Earth is only 10 000 years old whereas scientists consider our planet to be 4 56 billion years old Examining these conflicting views illuminates aspects of the perceived conflict between religion and science and helps us understand the battles between evolutionist and creationist advocates This book examines how we approach knowledge and how we look at certainty It disentangles the threads of the traditional knowledge we are taught from the knowledge we gain from our own investigation of truth It argues that nature the basis of science and scripture the basis of religion derive from a single source Because of their shared origins religious and scientific perspectives grounded in verifiable truths must be in harmony The book presents the science behind the reliability of isotopic dates and critiques young earth creationist attacks on isotopic studies Though the nature of time is a philosophical issue its measurement is a scientific venture that has affirmed that Earth is 4 56 billion years old The harmony of science and religion based on recognition of their single source is a prerequisite for the progress of humanity as a whole

Modern Ideas of Evolution as Related to Revelation and Science Sir John William Dawson,1892 , **The Creationists** Ronald L. Numbers,1993-01-01 Forty seven percent of the American people according to a 1991 Gallup poll believe that God made man as man is now in a single act of creation and within the last ten thousand years Ronald L. Numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement's tangled roots in the theologies of late nineteenth and early twentieth century Baptists Presbyterians Lutherans Adventists and other religious groups Even more remarkable than Numbers's story of today's widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth's antiquity to the insistence of present day scientific creationists that most fossils date back to Noah's flood and its aftermath and that the earth itself is not more than ten thousand years old Numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science

Adam's Ancestors David N. Livingstone,2011-03-15 Although the idea that all human beings are descended from Adam

is a long standing conviction in the West another version of this narrative exists humans inhabited the Earth before or alongside Adam and their descendants still occupy the planet This book traces the history of and debates surrounding the idea of non Adamic humanity

Apocalypse Now Volume 2: Revelation's Fifth Seal Matthew A. Petti,2013-02-24 Apocalypse translated literally from Greek is a disclosure of knowledge hidden from humanity in an era dominated by falsehood and misconception i e a lifting of the veil or revelation although this sense did not enter English until the 14th century In religious contexts it is usually a disclosure of something hidden In the Revelation of John the last book of the New Testament the revelation which John receives is that of the ultimate victory of good over evil and the end of the present age and that is the primary meaning of the term one that dates to 1175 Today it is commonly and erroneously used in reference to any prophetic End Time scenario or to the end of the world in general The key to the cryptic message in the book of Revelation is in the Metaphysics of Truth THE TRUTH IS ALWAYS TRYING TO REVEAL ITSELF TO US The Apocalypse Now Series is a new perspective on Revelation s prophecy and reading the first volume is paramount to understanding this new perspective Here in Volume 2 Revelation s fifth seal is significant in pointing to the certainty of life in the hereafter but more importantly it helps to uncover our false beliefs regarding the destiny of our souls after we die Many believe we will be awakened upon death but we demonstrate our death as the result of our failure to be awakened here on earth which implies much more What does that mean for we who have undying faith in Christ s redemption Is there redemption through Christ after death or is there more to it Discover the mysteries of Revelation s fifth seal as the secrets to our life s journey continue to be exposed in Volume 2 of the Apocalypse Now Series Where did we come from What is our purpose What is our destiny Read each of the 5 volumes of the Apocalypse Now series for an unprecedented solution to the most fundamental and important questions to our human existence

Eleonore Stump,2023-02-02 In the series of essays collected in this book Eleonore Stump offers reflections that illustrate the nature and importance of learning from the Christian heritage in its development over the ages of the Christian tradition and its continued development in interaction with contemporary philosophy theology and science The essays show the power of this heritage in philosophical theology and in philosophical biblical exegesis Central to the concerns they address is the Christian conviction that at the foundation of all reality is a God who is love in a welcoming personal relationship offered to all human beings The essays explore the nature of God and some puzzles about God s interactions with human beings they also examine the nature of human knowledge of God and argue that it can be achieved not only through propositional truths but also through knowledge of persons and even through apprehension of beauty in nature or the arts The book closes with an examination of what it is to will in accordance with the will of God for those who long for him

Unsealing Daniel's Prophecy The 2300-Year Dominion of Philosophy over the World Paul Csavdari,2025-05-30 Unsealing Daniel s Prophecy The 2300 Year Dominion of Philosophy over the World is a groundbreaking journey that bridges ancient biblical prophecy with the philosophical forces that have shaped the world for centuries Drawing from meticulously researched manuscripts and personal insights Paul Csavdari reveals how the visions of Daniel once sealed and mysterious carry profound relevance for our modern age This book is not merely a historical study It is a call to look beyond dogmas and the comfort of inherited interpretations It exposes the quiet drama behind how the ancient horns of power have found new shapes in every generation driven by human philosophies that claim absolute truth With a voice that is both personal and prophetic Paul invites readers to witness the collision of timeless truths and the illusions that continue to shape human destiny
